Hi,

I received the notice regarding the Telus building requesting more floor space adding a floor and adding another underground level.

I am firmly opposed to the construction of adding another level to the city skyline and to dig deeper into ground. This construction is already blocking quite a bit of view and by adding another floor, just makes the concrete jungle even worse. Enough is enough. They should not be so greedy by adding more than they have already been allocated. The residents around this area have put up a lot with the noise/construction caused by the Telus building construction. Its been inconvenient, its been loud, its been dirty, its been unsightly.

Why are they adding another level? They already blocked off enough sight lines, existing residents will not be able to see the downtown core properly, no ocean, no mountains. The others can not see the historic Bay any more.

I highly urge the city council to not allow this to happen.

My sentiments stated in this letter are also shared with fellow residents in this area.

Thank you for listening to my comments, hopefully, you will bring forth my concerns.

Regards,  
Tim Thom
