Dear Mayor and Council

RE: 1575 West Georgia / 620 Cardero St

I request that the February 23, 2016 Public Hearing agenda item #3, Rezoning Application for 1575 West Georgia / 620 Cardero St, be removed from that agenda.

Should this rezoning proceed with the limited amount of information provided to date, the City could be in contravention of its responsibilities under the Vancouver Charter to be open and democratic with the public, and in fact, it would deprive its own Councilors of the complete facts as allowed under all the Sections used for the third party severance. They would be misinformed or maybe ill informed, which surely would make the whole rezoning process a farce.

It is important to note that the information that has now been made public since staff referred the rezoning application to Council, does not answer the questions asked since September 2014.

It is completely beyond my understanding why The City chooses not to be completely open in dealing with the public when it produces rezonings. There is an old saying: When you have nothing to hide, you hide nothing.

Yours truly  
Grace MacKenzie  
A Vancouver taxpayer
