Dear Mayor and Council,

I reside at s.22(1) Personal and Confidential from the proposed development at 1575 West Georgia Street. From the information I have seen, the development will suit the evolving West Georgia corridor, and the pending developments along Alberni Street. I welcome the retention of the office component, which I think should be part of any redevelopment in this area to maintain the balance between residential and commercial. This area currently offers a great alternative to businesses that want to be downtown, but that do not want to locate in the business core, such as architects' offices! I like the sculptural approach to the building façade which will be nice relief from the conventional 'glass-box' condo towers.

I think this mixed use building is a good fit for this location, and a good design.

Barry Weih.
