As a Vancouver resident I fully support the new building proposed at Pender and Georgia Streets (1575 West Georgia).

There are a lot of new interesting buildings coming to this part of downtown and I'm really excited to finally see some diversity.

Right now, the current building is outdated and no longer suits the surrounding area. I quite like the architecture of the new building, the texture of the exterior and the way the building is broken up.

Thank you,
Christine Lamb

Mayor Robertson and Council,

As you review the proposal for a new residential and office building at 1575 West Georgia, please consider that this is exactly the type of location where new highrise buildings should go. This area is already full of high-rise apartment buildings, so if not here, then where? It makes sense to approve this project.

Thank you for your time,

Brandon Lamb

Hi, my name is Albert and I work a couple blocks from this proposed project.

I'm also a Vancouver resident that supports the continued development of commercial/office space to ensure that commercial lease rates are affordable. The architecture seems well suited for the location, and is a great site along the Georgia Corridor.

Thank you for taking my comments.
