**To:** Public Hearing  
**Subject:** Public Hearing re: 753 Seymour Street rezoning

I am unable to attend the public hearing on Tuesday, May 17, but would like to express my opinion.

I generally am a supporter of most developments in the downtown core, and generally acknowledge the need for office space. **However, in this case I believe such a tall building, immediately adjacent to the Scotia tower, will have an undesirable affect on the immediate area with respect to sight lines, sunlight & shadows, and the wind-canyon effect.** I believe there are many other parcels of land that could benefit from such a development (e.g. Seymour @ Nelson), and would prefer to see those parcels redeveloped as opposed to this location.

Best Regards,

Rob Reid
