Additional Comments:

As a Registered Nurse who has worked for many years in the downtown eastside with women and children, I appreciate the desperate need for low cost housing for women and children in this community. Atira is a non profit organization that has a long history of successfully providing low cost housing for women and children in this community in innovative ways. This project is another opportunity for them to do it again and I ask that City Council approve this project.

Additional Comments:

I love the idea of a community based supportive moms helping moms helping model. We gain our strengths from our experiences in life, to be connected to our communities that offer encouragement and support for the accomplishments we as mothers and women journey through in mothering is one of the most important supportive services we can offer. To have the opportunity to share in laughter and struggles, have commonalities that thread us as one, while respecting our individuality and voice. The "circle" supportive system is very powerful, it not only provides the immediate "hands" of love and support of other women and mothers supporting one another, it provides the layers of circles that also connect the children to external links, that promote relationship building. I love this project.. and I would love to be contacted to learn how I may help our community reach it's goal.

Best regards,

Tracey Korotash
