Subject: 1872 Parker Street - Comments of a Neighbouring Property Owner

To Whom it May Concern,

I recently received a Notice of Public Hearing relating to the project proposed for 1872 Parker Street. Unfortunately, I have a commitment that evening, otherwise I would attend to speak at the hearing.

I own the house at s.22(1) Personal and Confidential. For some time I have wondered what would be the fate of the wonderful Edwardian house at Parker and Victoria. I was concerned about it, as it had been boarded up for some time. I think that the proposal to retain it and infill the rear yard with additional housing, is excellent.

The neighbourhood gets to keep this historical gem, and in a restored state. And some badly needed new housing is sensitively worked in at the rear. We need to see more projects of this kind, which retain heritage while sensitively adding density.

Bravo to City staff for bringing this forward. Let's see similar such projects encouraged please.

Chris Bardon
