Dear Mayor and Council,

I have worked in the tech industry for close to twenty years with most of my career spent in the San Francisco area. I'm from Vancouver and went to UBC but the US had better job opportunities. Only recently did I join a Vancouver-based start up and am able to work where I live. I hope that our growing company is a reflection of the growing tech sector in Canada and Vancouver.

I fully support the City of Vancouver's initiative to grow the tech sector. I urge council to also support the proposed changes in policy that will allow for this.

Sincerely,

Arash Ramin

Dear Mayor and Council members,

As a resident living at in the Mount Pleasant neighbourhood at s.22(1) Personal and Confidential I am writing to provide my full support of the CoVs proposal to facilitate growth in Vancouver's innovation economy in the Mount Pleasant industrial area. The CoVs innovative efforts in supporting the digital and technology business industry is a great step for Vancouver's economy and job creation. The mount pleasant neighbourhood would benefit from this proposal moving forward promoting industry and neighbourhood growth.

I will be closely monitoring the process and look forward to seeing the proposed changes to the neighbourhood plan come together.

Regards,

(James) Bryan Dudley

Mayor Robertson and Councilors,

As a Vancouver resident and employee of a local start up I support the City's policy changes to encourage growth in digital industries.

Tech employees want to work in the City, not in a business park. Ensuring that tech companies have the ability to grow in the City of Vancouver rather than be forced to move is not only important to their employees but can provide the right environment to foster industry growth and innovation.

Thank you in advance for your support of this initiative.

Erin Kelly

To Mayor and Council:

As a resident of the Mount Pleasant Industrial Area living at s.22(1) Personal and Confidential Vancouver, BC, I write to you supporting the City's proposal to facilitate growth in Vancouver's innovation economy of the Mount Pleasant Industrial Area. While I understand the importance of industrial lands, keeping them within the City is an archaic concept. This area is well served by transit and is close to the city core; both of which should be taken advantage of. Additional density to facilitate the growth of digital and technology business initiatives in the city would have a positive impact on its local neighbourhood in addition to Vancouver's economy.

Thank you,

--

Amanda Payne
