I support the proposed development as per the notices and plans that were sent out dated May 5th 2017. I have reviewed the plans and the business that is proposed and I believe they have done an excellent job of designing something that will fit in well within the surrounding buildings and as the most affected apartment in Three Harbour green they have also considered our view corridors and have provided a plan that is much more considerate than what was originally planned. I believe to create a vibrant city we need more of these types of uses in locations like this that has become the heart of the City.
