Vancouver Staff

I can only assume that you are working on the premise that if you change the SUBMISSION procedure often enough that the Public will eventually give up. I think you will find an opposite result.

I have reached the point of disgust for the City staff and plan to become much more vocal and interested in what you can mess up next.

Concerned Taxpayer  
Bevan Wilson

**Subject:** Pearson Pool

**Follow Up Flag:** Follow up  
**Flag Status:** Flagged

To All it may concern,

My overview:

The Stan Strong property donated / allocated by ONNI as a park.

VANCOUVER CITY HALL / VCH / PARKS BOARD... PLEASE...

Consider, with communication of integrity, upgrading the existing pool.

This option may be financially viable and could address the circumstance at hand.

YMCA is no longer in the mix.

The footprint of the new pool will not likely come close, in aesthetic, emotional or functional elements, to the current amazing facility.

With Mary Ackenhusen's vision 'fostering a patient centred approach to care',

can we etch a successful path, for the disabled?

Respectfully,  
Mary Ann Moffat
