Subject: York House School - 4176 Alexandra Street

Dear Councillors,

As a parent of a student at the school, I am in strong support of York House School's recent rezoning application. This rezoning application supports the changes that are taking place in education in BC and around the world. We know that students are now having to learn in a different way so that they can adapt to a very different world than when I grew up. That means that there needs to be some changes in the spaces that they have to do the learning that will prepare them.

My daughter is currently in Grade 4. She has been able to benefit from the introduction of the STEAM program in the Junior School which challenges the students to solve real-world problems using Science, Technology, Engineering, Arts, and Math. The introduction of more students in the Senior School will help ensure that she can continue this type of learning.

Please vote in favour of this application and help empower young girls for the future.

Sincerely,

Rebecca Grinti

Subject: support York House School Rezoning

Dear Councillors,

I am pleased to offer my support for York House School's rezoning application. I have a daughter who is now in the Senior School and I know the challenges the school faces with regard to having a wider variety of subjects available for the girls to explore. It is very important that we are able to give the girls the best opportunities to learn new things that challenge them to think critically and creatively and collaborate with their peers. Having the space and numbers to do this will prepare the students for future success and only be a benefit to the community it resides in. I hope you will approve this application.

Regards,

Yihan Hai
