Subject: 61-95 West Hastings Street

I am a resident of this area, my address is s.22(1) Personal and Confidential Canada.
The Woodward's development which is adjacent to this proposed building is an excellent example of a developer cooperating with the city's goal to provide affordable housing. As a result a community has established on the Woodward's site respectful of its supported and lower income residents. This new development should build on that success and be required to include a reasonable ratio of low income community housing units. Such a requirement should be the norm for developments in this neighbourhood.

Regards
Meredith Sargent
