Subject: Comment on 1055 Harwood Street & 1068-1090 Burnaby Street & 1318 Thurlow Street

Hi there,

as a resident of Harwood street for the past 5 years, I can assure you I have no problem with more construction I can take it, I don't mind it. but as a young engineer who wants to live on a lively and vibrant community I don't think this neighborhood has the capacity of growing any faster. Fast crazy growth like this will kill the character of the area.

I'm also concerned about building more residential in downtown. we would like to see businesses to have affordable space and grow in our community and more importantly in Vancouver. Downtown is an area for businesses to glow not more and more residentials and traffic.

honestly even if you think there should be more high rises, there should at least be monumental buildings with striking aesthetics, design and sustainability. You can't just throw social housing units to sweeten the appeal.

Thank you for considering my comments when you make your decisions on these proposed buildings.

Regards,
Nima

Reference: Notice of public hearing for 1068-1090 Burnaby Street And 1318 Thurlow street and 1055 Harwood street.

Dear Vancouver City Council,

I wish to object strongly to the development of buildings in those 3 locations. As a Westend resident I really appreciate the life style and quality of life in the neighbourhood. Some examples are not having an overly crowded neighbourhood, views to the beach and English bay are not blocked by big towers, safety and peacefulness of the area. The fact of building high rises in those locations, does not fit the structure of this neighbourhood and will have an impact on the life quality in the near future.

In my opinion the city needs to keep the new development at maximum 10 storey residential building to avoid disruption of good quality of life.

I would appreciate if my comments are considered in your final decision.

Sincerely yours,

Resident of s.22(1) Personal and Confidential
