#### *DISCUSSION*

The Vancouver Charter provides Council with a variety of financial authorities related to the City's operation. In order to allow for day-to-day administration of the City, Council delegates the following authorities to the Director of Finance.

##### *1) The Authority to Issue Warrants*

Sections 213 to 215 of the Charter specify the manner in which payments are to be made by the City. Section 213 and 214 authorized the Director of Finance to approve warrants for payments and to process payments subject to the provisions of Section 215 which specifies that all payments must be approved by Council, except for amounts necessary in case of an emergency. In every circumstance, payments by the City follow directly from Council approvals made as part of the budget process. The Director of Finance is requesting confirmation of this authority to make payments in circumstances where Council has approved them. This authority is administrative in nature and in no way infringes on Council's policy-making powers.

2) The Authority to Utilize Capital Funds

Section 259 of the Charter authorizes Council to temporarily utilize the proceeds of debenture issues to cover other expenditures of the city pending the collection of current taxes each year; provided that the use of such funds is limited to the period from of January 1 to July 15 in the year, and that such funds are returned to the Capital Fund by that latter date. This authority is integral to the management of the City's financial affairs and the Director of Finance is seeking confirmation of this authority for 2006.

3) The Authority to Invest the City's Cash Balances

The Vancouver Charter provides Council with the authority to invest the City's cash balances (Section 201) including the proceeds of debenture sales (Section 259) and cash in the Sinking Fund (Section 260). This authority is delegated annually to staff to ensure that these funds are managed to the best advantage of the City.

4) Operating Line of Credit

Section 263 of the *Vancouver Charter* authorizes the City to manage its cash flow by issuing promissory notes or by way of overdraft with the repayment to be guaranteed from the general purposes property taxes to be collected during the year. This authority permits the Director of Finance to borrow on a day-to-day basis and is used only for short periods of time if the need arises.

In order to execute this authority, Council must pass a bylaw specifying the maximum amount of any short term indebtedness and the period during which the authority is in effect, and guaranteeing the repayment of any outstanding balances from the general purposes property tax levy. The terms of the bylaw will authorize the Director of Finance to borrow a sum of money by overdraft of which the total outstanding at any one time shall not, during the period from January 8, 2006 to January 7, 2007, exceed \$60,000,000. This borrowing facility is established with the City's prime banker, the Bank of Montreal.

**CONCLUSION**

The Vancouver Charter provides Council with the authority to manage the financial affairs of the City, including the authority to issue warrants, to utilize surplus debenture cash to support the operations on a temporary basis and to invest surplus funds. In order for these matters to be dealt with effectively on a day-to-day basis, these authorities are delegated to the Director of Finance on an annual basis.
