
MEMORANDUM

June 24, 2007

TO: Mayor and Council

CC: Judy Rogers, City Manager
Sid Baxter, City Clerk

FROM: Tom Timm, General Manager of Engineering Services

SUBJECT: Modification to Report Entitled, "Building Line Review of 41st Avenue, 49th Avenue, and SW Marine Drive west of Granville"

This memo is to inform Mayor and Council about a modification to the recommendation for the Administrative report dated May 31, 2007, entitled, "Building Line Review of 41st Avenue, 49th Avenue, and SW Marine Drive west of Granville", which was originally scheduled to be considered at the Standing Committee on Transportation and Traffic on June 12, 2007. Due to time constraints, this report has been rescheduled to the Transportation and Traffic committee meeting on July 24th, 2007.

For clarity, the recommendation should be revised as follows:

THAT any further work on the building line review of SW Marine Drive, West 41st Avenue and West 49th Avenue be postponed until after the development of a new long range transportation plan, noting that the principles of the 1997 Transportation Plan, including no increase in arterial network capacity and giving priority to pedestrians, bikes, transit and good movements over private automobiles will continue to be applied to these streets and that staff pursue improvements for pedestrian, bike and transit modes as opportunities arise.

If you have any questions or comments about this please contact Jerry Dobrovolny, Assistant City Engineer- Transportation at 604-873-7331.

Tom Timm, P.Eng.
General Manager/City Engineer
