Phone No.: 604.871.6169
RTS No.: 07117
VanRIMS No.: 05-1200-40
Meeting Date: February 12, 2008

TO: Vancouver City Council
FROM: General Manager of Corporate Services / Director of Finance
SUBJECT: 2008 Heather Marina Moorage and Other Fees

RECOMMENDATION

- A. *THAT the moorage rates at the Heather Marina be increased by 2.75% effective April 1, 2008 as detailed in Appendix C, reflecting inflationary increases in anticipated expenses.*
- B. *THAT the fees for electrical services for recreational and liveaboard boaters at Heather Marina be increased by 3.64% effective April 1, 2008 as detailed in Appendix C, reflecting the net increase in rates by BC Hydro in 2007.*

COUNCIL POLICY

It is Council Policy that Heather Marina moorage rates reflect but do not lead the local market. Moorage rates at Heather Marina are adjusted annually to reflect cost increases and current market conditions.

PURPOSE

The purpose of this report is to seek Council approval of moorage rates and other fees and charges at Heather Marina for the period from April 1, 2008 to March 31, 2009.

BACKGROUND

The City of Vancouver owns two marinas, both situated in False Creek and managed by the Park Board. Heather Marina has 254 mooring berths, including 27 live aboard berths, while the Burrard Civic Marina has 471 berths.

Heather Marina is an asset of the Property Endowment Fund (PEF) and is operated as a business rather than a public service. Moorage and other fees are generally at or near market levels such that operating expenses are covered and the net income accrues to the PEF. The allocation of the net income to the PEF is in recognition of the fact that depreciation is not charged to the Marina and major capital costs as well as the eventual replacement of the Marina are to be funded by the PEF. The net revenue also provides a return on investment to the PEF. Moorage and other fees and charges are set annually by Council.

On February 15, 2007 Council approved a 14% increase in moorage and other fees at the Marina.

DISCUSSION

1. Vancouver Area Moorage Rates

Appendix A provides a comparison of rates as of January 2008 at various marinas in the area and the increase over 2007 rates. Rates at other marinas range from \$8.50 per foot per month (with an additional annual fee of \$800 and a one time fee of \$8,000) to \$13.58 per foot per month. For those marinas that have established recreational moorage fees for 2008, the increases have ranged from 0% to just over 11%.

2. Moorage Rates

Moorage fees at Heather Marina account for about 90% of the marina's revenues, the balance coming from other fees. Moorage fees reflect the marina's operating costs as well as the market for moorage in False Creek and the Greater Vancouver area.

Table 1 shows the revenues and expenditures for Heather Marina in 2006 and 2007 and the 2008 proposed budget.

Table 1. Heather Marina Revenues and Expenses

	2006 Actual	2007 Actual	2008 Budget
REVENUES			
Moorage	\$838,902	\$930,012	\$955,575
Other revenue	\$81,422	\$81,163	\$81,100
TOTAL REVENUE	\$920,324	\$1,011,175	\$1,036,675
EXPENSES			
Maintenance	\$56,239	\$48,049	\$73,000
Management	\$281,144	\$285,995	\$275,300
Utilities	\$59,367	\$77,633	\$77,800
Waterlot Lease	\$37,686	\$31,554	\$37,700
TOTAL EXPENSES	\$434,437	\$443,231	\$463,800
ALLOCATION TO PEF	\$485,887	\$567,944	\$572,875

The increase in revenue in 2007 over 2006 is due to a market rate adjustment of 14% in moorage rates that year. The 2007 net income allocated to the PEF reflects that adjustment.

Based on a review of budgeted expenditures for the marina, including recently negotiated wage increases and the current market rates for moorage in Greater Vancouver, the Director of Finance recommends that the moorage rates at Heather Marina be increased by 2.75% for 2008. This increase will produce just under \$575,000 in net income from the marina.

The following table summarizes the current and proposed rates.

Table 2. Recommended Heather Marina Moorage Rates

	Current Fee	Proposed Fee
	per foot, per month	
General Moorage	\$9.96	\$10.24
Liveaboard Moorage	\$10.43	\$10.72

The liveaboard moorage fee includes a 5% surcharge reflecting the cost of the monthly payment option available to owners who live aboard their boats. Liveaboard boat owners who pay their annual moorage in advance can avoid the surcharge reflected in these fees.

The 2.75% rate increase keeps the moorage rates at Heather Marina comparable with other facilities in Greater Vancouver. Appendix B provides a comparison of monthly moorage charges at various marinas in the area. For a 30 foot boat, the proposed moorage at Heather Marina places it at about midpoint of the eight marinas surveyed. When annual and one-time fees that some marinas charge are taken into account, Heather Marina monthly payments for a 30 foot boat are less than all of the marinas surveyed except Burrard Marina. This is consistent with Council policy to neither lead nor lag the market.

The recommended increase also ensures that the relationship between the fees at Heather Marina and Burrard Marinas is maintained. The higher rates at Heather Marina reflect a generally newer and superior facility. A general moorage fee of \$10.24 per foot per month would be \$0.29 greater than the rate at Burrard Marina (\$9.95 before GST, for boats 22 ft. and over).

Temporary (transient) moorage is offered by the day when berths are available. Transient fees are charged at a premium to reflect the short term duration. It is recommended that these fees are increased by 2.75%. Appendix C provides a breakdown of current and proposed rate and other fees for Heather Marina.

3. Electricity Charges

The use of electricity is available to recreational and liveaboard boaters. It is recommended that this charge be increased by 3.64% to reflect the net increase imposed by BC Hydro in 2007.

FINANCIAL IMPLICATIONS

The recommended increase in moorage rates will retain the current net income to the Property Endowment Fund.

NOTIFICATION TO INTERESTED PARTIES

Notification of the proposed changes in moorage rates and other fees at Heather Marina for 2008 and the date upon which the increase will be considered have been posted at the Marina.

CONCLUSION

This report recommends a general fee increase of 2.75% to moorage rates and an increase of 3.64% to electricity charges at the Heather Marina to reflect anticipated cost increases.
