## COMMUNICATIONS

### 1. 2009 LMLGA Resolutions

MOVED by Councillor Chow

THAT the following Resolutions be submitted to the 2009 Lower Mainland Local Government Association:

#### A. LEGISLATIVE REVIEW OF THE LIBRARY ACT

WHEREAS public library services are crucial in fostering life long learning for all, are especially important in difficult economic times, and the Minister of Education has announced a legislative review of the Act which is intended to "encourage the extension and use of public library service throughout British Columbia";

AND WHEREAS the Act mandates free resident access to most public library services with a citizen governance board for municipal libraries while also providing for appropriate City Council influence and control;

THEREFORE BE IT RESOLVED THAT the UBCM urge the Minister to maintain the core principles of free access to public library service and citizen governance for municipal public libraries as mandated in the Library Act.

#### B. INTERNET ACCESS IN PUBLIC LIBRARIES

WHEREAS public library services are crucial in fostering life long learning for all, are especially important in difficult economic times, and the Minister of Education has announced a legislative review of the Act which is intended to "encourage the extension and use of public library service throughout British Columbia";

AND WHEREAS the provision of free access to the Internet in public libraries is essential to ensure equity of access for all to this important source of information and access to government services;

THEREFORE BE IT RESOLVED THAT the UBCM recommend that free resident access to the Internet through public libraries be mandated in the Library Act.

**C. BRITISH COLUMBIA AND CANADA, RECYCLING CAPACITY**

WHEREAS a large proportion of recyclable materials are exported from Canada to the United States, Southeast Asia and other offshore countries to be processed back into basic manufacturing feedstock;

AND WHEREAS this export of valuable materials results in an increased environmental impact from transportation, a lack of local control of the end markets for our recyclables and a reduced number of Canadian jobs;

AND WHEREAS the recent economic downturn and collapse of the world commodity markets has highlighted BC's and Canada's dependence on foreign markets for recyclable materials, which has had a large impact on financial returns, employment and our ability to maintain our recycling programs;

AND WHEREAS a number of Provinces are considering large new stewardship programs to cover more packaging which will increase the amount of materials that need to be recycled;

THEREFORE BE IT RESOLVED THAT UBCM urge both the Federal and Provincial governments to implement policies and programs that will lead to the creation of increased industrial capacity in British Columbia and in Canada to process recyclable materials. Mandatory recycled content legislation that exists in some US states should be implemented in BC as one policy to increase the demand for old materials. A grant and/or loan guarantee program for recycling plant infrastructure development should also be implemented.

**D. INCREASE FUNDING TO COMBAT GANG VIOLENCE**

WHEREAS gang violence in Metro Vancouver, and across British Columbia, is a significant and rising problem;

WHEREAS there are gaps in the regional response to gang violence, between on-the-ground police officers and the provincial and regional integrated units;

WHEREAS the Vancouver Police Department has taken a regional leadership role in the battle against gangs through programs such as Project Rebellion;

WHEREAS Project Rebellion is extremely resource-intensive, with the investigative team and Strike Force surveillance teams working at maximum capacity, as well as maximum staffing levels in wiretap facilities;

WHEREAS the Vancouver Police Department and other municipal police forces are not funded to sustain the highly intensive, long-term operations necessary to combat gang violence;

WHEREAS there is no cost-sharing mechanism for police efforts that carry over into surrounding municipalities;

THEREFORE BE IT RESOLVED that the Federal and Provincial Governments provide a long-term, annual funding commitment to municipal police forces to combat gang violence, and that this funding enable the deployment of highly-intensive gang surveillance operations over an extended period of time.

1. The February 2009 BC Provincial Budget announcement contains cuts of nearly 50% to the annual Arts and Culture Budget.
2. Whereas one-time funding does not adequately replace ongoing funding and the planning it allows.
3. The Federal Government cut several arts programs in 2008 including programs which support cultural tourism.
4. Investing in the arts provides a disproportionate economic stimulus to local communities - over twelve dollars generated for every dollar invested.
5. Whereas Vancouver is a livable city in large part because of the involvement and investment of artists.
6. Whereas Vancouver's economic development has been aided by the city's vibrant creative sector and creative economy.
7. Eliminating support for the arts will have a measurable negative effect on the creative sector, especially small arts companies.
8. Negative impacts on the creative sector will have a resulting negative impact on the economies of Vancouver and Metro Vancouver in a time of economic challenges.

### THEREFORE BE IT RESOLVED

1. THAT Vancouver City Council urges the Provincial and Federal Governments to reinstate full funding to the creative sector and related programs and further consider additional investment as part of economic stimulus programs.
2. THAT this motion be forwarded to the Union of British Columbia Municipalities and the Federation of Canadian Municipalities for consideration of endorsement.

**4. Recognizing Local Olympians and Paralympians**

The following motion reflects an amendment to the original Motion on Notice which was accepted by Council.

MOVED by Councillor Meggs  
SECONDED by Mayor Robertson

WHEREAS, Vancouver has a richness of amateur and professional sport that contributes significantly to our local economy and;

WHEREAS, the 2010 Olympic and Paralympic Winter Games should be an opportunity for celebrating, honouring and recognizing our local Olympians, Paralympians, and amateur athletes, coaches and volunteers and to date this recognition has not adequately happened within the Vancouver Olympic and Paralympic planning activity;

WHEREAS, Vancouver is blessed with an abundance of volunteers in amateur sport who deserve more recognition and thanks for their community contribution to the lives of children and youth in our community; and

WHEREAS, the Mayor and Council should take a leadership role in recognizing those who have made significant contributions to local sport, recreation and community development.

THEREFORE BE IT RESOLVED

THAT Council direct the City Manager, in consultation with the Park Board, to develop an action plan for the establishment of a recognition and medal program, entitled "Heroes of Sport", that would:

- 1) Recognize local Olympians and Paralympians to acknowledge their contribution and to provide more inclusion in the 2010 Games;
- 2) Work with partners to develop a means by which former Olympians and Paralympians can act as Hosts to help welcome visitors, raise the profile of sport and highlight Vancouver during the Games;
- 3) Develop a recognition program of local volunteer leaders and athletes in amateur sport;
- 4) Work with the Mayor's office and report back to Council with recommendations on a proposed recognition and medal program that would be feasible to implement in time for the 2010 Games.

## 5. Public Bike Share (PBS) System

MOVED by Councillor Louie  
SECONDED by Councillor Meggs

WHEREAS in April 2005, Council approved the Community Climate Change Action Plan that identified the critical importance of encouraging and supporting active transportation if Vancouver is to meet its greenhouse gas reduction target for 2012;

AND WHEREAS City Council supported in principle the Bicycle Advisory Committee's 2005 vision to bring the City-wide cycling mode share up to 10% by 2010;

AND WHEREAS the 1997 Transportation Plan, adopted by Council in May 1997, identifies cycling as the second-highest priority transportation mode within the City;

AND WHEREAS the City of Vancouver Bike Program is aimed at better integrating cyclists into the existing transportation system and promoting and encouraging the use of bicycles as a safe and convenient mode of transportation;

AND WHEREAS Translink Public Bike Share (PBS) Feasibility Study identified eight areas in Metro Vancouver as possible areas and in particular Downtown Vancouver as the strongest candidate for initial implementation of a successful PBS;

AND WHEREAS based on experience elsewhere, it is estimated that up to 10% of trips made on a Vancouver PBS would shift from car trips and up to 50% from conventional transit trips, resulting in up to a 1 million kilometer reduction in auto use per year and 2.5 million transit trips per year would be shifted - freeing up conventional transit capacity to attract more drivers to transit;

AND WHEREAS these shifts will reduce auto congestion, air emissions, GHG emissions, noise and conserve energy.

THEREFORE BE IT RESOLVED THAT Council direct staff to explore opportunities to implement a large-scale demonstration of a Public Bike Share system by February 2010.

AND BE IT FURTHER RESOLVED THAT Council direct staff to develop and issue an RFP for a Public Bike Share system within Vancouver for implementation by the summer of 2010 and that staff report back on this RFP with respect to financial and staffing implications, as well as coordination with, or impacts to, existing contracts and business units.

## 6. External Audit Review

MOVED by Councillor Louie  
SECONDED by Councillor Jang

WHEREAS Council is committed to minimizing the property tax burden on residents and businesses by maximizing the efficiency of the City's operations without compromising necessary public services;

AND WHEREAS the recent economic downturn has challenged the City's finances and magnified the need to find lasting efficiencies and cost savings;

AND WHEREAS the City Manager is implementing temporary cost savings measures to balance the 2009 operating budget, which should ultimately be replaced with sustainable permanent efficiencies.

THEREFORE BE IT RESOLVED THAT the City Manager issue a request for proposal for external audit resources to assist with a comprehensive review of the businesses in all City departments and Boards, as well as Easy Park and the PNE. The review would include:

1. An examination of savings or shared service improvement opportunities in the City's provision of internal services, including I&T, human resources, legal services, accounts payable, purchasing, time entry, payroll, security, building maintenance, yards, and other services.
2. An examination of City reserves and the five City funds to identify and report possible changes of process and structure to produce efficiencies, opportunities or cost reductions.
3. An examination of City activities to identify those not mandated by legislation, no longer a priority, of questionable efficacy, or otherwise a candidate for reduction or elimination.
4. Any other change in business practices that could produce efficiencies or cost reductions.

## ENQUIRIES AND OTHER MATTERS

### 1. Corporate Sponsorship

Councillor Meggs noted that some companies are revisiting their sponsorship programs in light of the City's policy of not allowing the use of corporate logos by sponsored non-profit organizations. He requested the City Manager direct staff involved in reviewing the Sign By-law to keep Council informed of these developments and whether the budgets of some non-profit organizations are at risk because of this City policy.

### 2. 2010 Olympics and Paralympics

Councillor Meggs noted he was an observer at a meeting between BC Federation of Labour and unions that are concerned of job losses which will be caused by the Olympics. They have a number of concerns which they will raise directly with VANOC and he has additional information available if Council members wish to know the issues that were raised.

Councillor Woodsworth noted that Olympic practice venues are not going to be accessible to local neighbourhoods. She requested the City Manager to consult with VANOC about the possibility of allowing local children to observe some of the practice sessions in those facilities.

Councillor Woodsworth also noted that she has spoken with organizations involved in the disability community and they are concerned that they have not yet met with VANOC representatives about the upcoming games, and she requested the City Manager to follow up on this with VANOC.

### **3. Engineering Street Sweeps in the Downtown Eastside**

Councillor Woodsworth enquired on the status of her previous request concerning the Engineering street sweeps in the Downtown Eastside involving homeless people and their belongings. She also enquired whether they are still taking place.

### **4. KPMG Contract**

Councillor Anton requested clarification as to whether the work KPMG has been hired to do is a consultancy or a contract for services. James Ridge, Deputy City Manager, confirmed it is a contract for services.

Councillor Anton also reiterated her request for written confirmation from KPMG that their role in regard to this contract is independent from their role as the City's auditor. She further expressed concerns that the draft report has been reviewed with one Council member rather than all members being provided with the information at the same time.

Penny Ballem, City Manager, advised she is certain KPMG is clear they are not in a conflict of interest and would be willing to provide confirmation of that.

Councillor Louie rose on a point of order, noting that the matter of KPMG's independence in terms of the contract and the appropriateness of that contract has been dealt with twice by Council, and therefore an additional request on this matter is out of order. The Mayor ruled the request by Councillor Anton out of order.

### **5. Disclosure of Nomination Expenses**

Councillor Anton expressed concern that Councillor Louie has not yet filed his nomination expenses.

Councillor Louie advised he has filed full and complete disclosures as required by law with the City Clerk.

### **6. Community Garden on City North Lawn**

Councillor Anton expressed concerns with regard to the proposed community garden on the north lawn of City Hall, noting the design of this lawn has recently gone through a lengthy community process and is meant as a ceremonial lawn which will be used during the 2010 Games.

Penny Ballem, City Manager, advised this project is part of the "2,010 Garden Plots by 2010" program and also clarified the garden had been reviewed with the City planner and represents no conflict with other work to be done along Cambie Street and on the heritage wall.

The Council adjourned at 6:46 p.m.
