

MOTION ON NOTICE

B.4

4. Call for a Poverty Reduction Plan for British Columbia

MOVER: Councillor Ellen Woodsworth

SECONDER: Councillor Kerry Jang

WHEREAS:

1. The poverty rate in British Columbia continues to be among the highest in Canada, and child poverty rates in B.C. have been the highest of any province for six years in a row;
2. At least six Canadian provinces either have poverty reduction plans or are in the process of developing them;
3. The BC Poverty Reduction Coalition has launched a call to the Government of British Columbia for a comprehensive poverty reduction plan that includes legislated targets and timelines;
4. The Coalition has supported its call with an open letter "A Call for BC Poverty Reduction Plan";
5. An increasing number of municipalities, organizations and individuals have endorsed the Coalition's open letter; and
6. In "Mending Canada's frayed social safety net: The role of municipal governments" (<http://www.fcm.ca/english/View.asp?mp=1&x=1297>), the report looks at poverty statistics in 24 Canadian metropolitan areas with a total of 17 million people (54% of Canada's population). Of the 24 cities, Vancouver has the highest percent of population with low income; the highest percent of working poor families; and the largest and fastest growing income gap between rich and poor. Welfare income was also very low in Vancouver, and Vancouver had the second highest number of households which paid more than 30% of their income for rent and/or lived in inadequate housing. In March 2009 26.6 % of Vancouver residents had low incomes. Vancouver was also worst for "community affordability." That means that the combination of low income plus high cost of living makes the poorest fifth of Vancouver residents worse off than those in other cities.

THEREFORE BE IT RESOLVED THAT Vancouver City Council endorse the Coalition's open letter; and

BE IT FURTHER RESOLVED THAT Council send the attached resolution to UBCM and request that they sign the open letter "A Call for BC Poverty Reduction Plan" (<http://bcpovertyreduction.ca/>).

WHEREAS the poverty rate in British Columbia continues to be among the highest in Canada;

AND WHEREAS many impacts of poverty are experienced at the local level, and local residents pay for poverty in increased health care costs, higher crime, higher demand for community, social and charitable services, lack of school readiness, reduced school success, and lower economic productivity.

THEREFORE BE IT RESOLVED THAT the Union of British Columbia Municipalities urge the Government of British Columbia to follow the lead of several other provinces by adopting a comprehensive and accountable poverty reduction plan, with:

1. Legislated targets and timelines to;
 - (a) reduce BC's poverty rate by 30 per cent within four years, and by 75 per cent within 10 years,
 - (b) ensure the poverty rate for children, lone-mother households, single senior women, Aboriginal people, people with disabilities and mental illness, and recent immigrants and refugees likewise declines by 30 per cent in four years, and by 75 per cent in ten years, in recognition that poverty is concentrated in these populations,
 - (c) within two years, ensure that every British Columbian has an income that reaches at least 75 per cent of the poverty line,
 - (d) within two years, ensure no one has to sleep outside, and end all homelessness within eight years (ensuring all homeless people have good quality, appropriate housing).

2. Specific policy measures and concrete actions, including;
 - (a) providing adequate and accessible income support for the non-employed, and removing policy barriers so that recipients can build and maintain assets,
 - (b) improving the earnings and working conditions of those in the low-wage workforce,
 - (c) improving food security for low-income individuals and families,
 - (d) addressing homelessness and adopting a comprehensive affordable housing and supportive housing plan,
 - (e) providing universal publicly-funded child care,
 - (f) enhancing support for training and education for low-income people,
 - (g) enhancing community mental health and home support services, and expanding integrated approaches to prevention and health promotion services.

BC Needs a Poverty Reduction Plan with Legislated Targets and Timelines

AN OPEN LETTER TO BRITISH COLUMBIA POLITICAL PARTIES

It is time for British Columbia's provincial government to launch a comprehensive poverty reduction plan—a detailed and accountable strategy with concrete and legislated targets and timelines to dramatically reduce homelessness and poverty in our province. Six Canadian provinces either have such plans or are in the process of developing them, but so far, not BC.

By any measure, BC has the highest rate of poverty in Canada. BC has recorded the highest child poverty rate for six years running. Despite years of strong economic growth and record low unemployment, almost half a million British Columbians—11 per cent of the total population—live in poverty, and homelessness continues to rise. As we struggle through a global economic downturn, poverty risks getting worse unless action is taken.

We all pay for poverty. Study after study links poverty with poorer health, higher justice system costs, more demands on social and community services, more stress on family members, and diminished school success. Effective poverty reduction will require the efforts of all segments of society (all levels of government, the private sector, non-profits, and citizens generally), but the provincial government must take the lead.

The policies needed to make a dramatic difference are known, and other jurisdictions that are setting clear targets and timelines are getting results. A comprehensive approach needs to boost the incomes of those living in poverty, but also build the social infrastructure, public services and assets that are vital to providing a path out of poverty.

We, the undersigned, urge the provincial government to adopt and legislate poverty reduction targets and timelines, and commit to implementing a comprehensive action plan.

We recommend the following targets and timelines:

- Using Statistics Canada's low-income cut off after tax (LICO-AT), reduce BC's poverty rate from 13 per cent to 9 per cent in four years, and to 3 per cent in ten years (meaning, effectively, a one third reduction within this government's mandate, and a 75 per cent reduction within a decade).
- Ensure the poverty rate (using the LICO-AT) for children, lone-mother households, single senior women, Aboriginal people, people with disabilities, and recent immigrants likewise declines by 30 per cent in four years, and by 75 per cent in ten years, in recognition that poverty is concentrated in these populations.

BC Needs a Poverty Reduction Plan with Legislated Targets and Timelines

AN OPEN LETTER TO BRITISH COLUMBIA POLITICAL PARTIES

It is time for British Columbia's provincial government to launch a comprehensive poverty reduction plan—a detailed and accountable strategy with concrete and legislated targets and timelines to dramatically reduce homelessness and poverty in our province. Six Canadian provinces either have such plans or are in the process of developing them, but so far, not BC.

By any measure, BC has the highest rate of poverty in Canada. BC has recorded the highest child poverty rate for six years running. Despite years of strong economic growth and record low unemployment, almost half a million British Columbians—11 per cent of the total population—live in poverty, and homelessness continues to rise. As we struggle through a global economic downturn, poverty risks getting worse unless action is taken.

We all pay for poverty. Study after study links poverty with poorer health, higher justice system costs, more demands on social and community services, more stress on family members, and diminished school success. Effective poverty reduction will require the efforts of all segments of society (all levels of government, the private sector, non-profits, and citizens generally), but the provincial government must take the lead.

The policies needed to make a dramatic difference are known, and other jurisdictions that are setting clear targets and timelines are getting results. A comprehensive approach needs to boost the incomes of those living in poverty, but also build the social infrastructure, public services and assets that are vital to providing a path out of poverty.

We, the undersigned, urge the provincial government to adopt and legislate poverty reduction targets and timelines, and commit to implementing a comprehensive action plan.

We recommend the following targets and timelines:

- Using Statistics Canada's low-income cut off after tax (LICO-AT), reduce BC's poverty rate from 13 per cent to 9 per cent in four years, and to 3 per cent in ten years (meaning, effectively, a one third reduction within this government's mandate, and a 75 per cent reduction within a decade).
- Ensure the poverty rate (using the LICO-AT) for children, lone-mother households, single senior women, Aboriginal people, people with disabilities, and recent immigrants likewise declines by 30 per cent in four years, and by 75 per cent in ten years, in recognition that poverty is concentrated in these populations.

BC Needs a Poverty Reduction Plan with Legislated Targets and Timelines

AN OPEN LETTER TO BRITISH COLUMBIA POLITICAL PARTIES

It is time for British Columbia's provincial government to launch a comprehensive poverty reduction plan—a detailed and accountable strategy with concrete and legislated targets and timelines to dramatically reduce homelessness and poverty in our province. Six Canadian provinces either have such plans or are in the process of developing them, but so far, not BC.

By any measure, BC has the highest rate of poverty in Canada. BC has recorded the highest child poverty rate for six years running. Despite years of strong economic growth and record low unemployment, almost half a million British Columbians—11 per cent of the total population—live in poverty, and homelessness continues to rise. As we struggle through a global economic downturn, poverty risks getting worse unless action is taken.

We all pay for poverty. Study after study links poverty with poorer health, higher justice system costs, more demands on social and community services, more stress on family members, and diminished school success. Effective poverty reduction will require the efforts of all segments of society (all levels of government, the private sector, non-profits, and citizens generally), but the provincial government must take the lead.

The policies needed to make a dramatic difference are known, and other jurisdictions that are setting clear targets and timelines are getting results. A comprehensive approach needs to boost the incomes of those living in poverty, but also build the social infrastructure, public services and assets that are vital to providing a path out of poverty.

We, the undersigned, urge the provincial government to adopt and legislate poverty reduction targets and timelines, and commit to implementing a comprehensive action plan.

We recommend the following targets and timelines:

- Using Statistics Canada's low-income cut off after tax (LICO-AT), reduce BC's poverty rate from 13 per cent to 9 per cent in four years, and to 3 per cent in ten years (meaning, effectively, a one third reduction within this government's mandate, and a 75 per cent reduction within a decade).
- Ensure the poverty rate (using the LICO-AT) for children, lone-mother households, single senior women, Aboriginal people, people with disabilities, and recent immigrants likewise declines by 30 per cent in four years, and by 75 per cent in ten years, in recognition that poverty is concentrated in these populations.

- Within two years, ensure that every British Columbian has an income that reaches at least 75 per cent of the poverty line (using the LICO-AT).
- Within two years, ensure no one has to sleep outside, and end all homelessness within eight years (ensuring all homeless people have good quality, appropriate housing).

In order to achieve these targets, we call upon the province to commit to specific policy measures and concrete actions in each of the following policy action areas. Special attention should be focused on the needs of those most likely to be living in poverty (single mother households, single senior women, Aboriginal people, people with disabilities and mental illness, and recent immigrants and refugees).

Policy Action Areas

1. Provide adequate and accessible income support for the non-employed.
2. Improve the earnings and working conditions of those in the low-wage workforce.
3. Improve food security for low-income individuals and families.
4. Address homelessness and adopt a comprehensive affordable housing and supportive housing plan.
5. Provide universal publicly-funded child care.
6. Enhanced support for training and education for low-income people.
7. Enhance community mental health and home support services, and expand integrated approaches to prevention and health promotion services.

There is nothing inevitable about poverty and homelessness in a society as wealthy as ours. If we commit to a bold plan, a dramatic reduction in poverty and homelessness within a few short years is a perfectly achievable goal.

SIGNED BY organizations and community leaders from across the province, including faith leaders, health organizations, doctors, businesses, First Nations and Aboriginal groups, labour unions, immigrant and refugee organizations, community service agencies, municipal councils, women's groups, and many more.

BC Needs a Poverty Reduction Plan with Legislated Targets and Timelines

AN OPEN LETTER TO BRITISH COLUMBIA POLITICAL PARTIES

It is time for British Columbia's provincial government to launch a comprehensive poverty reduction plan—a detailed and accountable strategy with concrete and legislated targets and timelines to dramatically reduce homelessness and poverty in our province. Six Canadian provinces either have such plans or are in the process of developing them, but so far, not BC.

By any measure, BC has the highest rate of poverty in Canada. BC has recorded the highest child poverty rate for six years running. Despite years of strong economic growth and record low unemployment, almost half a million British Columbians—11 per cent of the total population—live in poverty, and homelessness continues to rise. As we struggle through a global economic downturn, poverty risks getting worse unless action is taken.

We all pay for poverty. Study after study links poverty with poorer health, higher justice system costs, more demands on social and community services, more stress on family members, and diminished school success. Effective poverty reduction will require the efforts of all segments of society (all levels of government, the private sector, non-profits, and citizens generally), but the provincial government must take the lead.

The policies needed to make a dramatic difference are known, and other jurisdictions that are setting clear targets and timelines are getting results. A comprehensive approach needs to boost the incomes of those living in poverty, but also build the social infrastructure, public services and assets that are vital to providing a path out of poverty.

We, the undersigned, urge the provincial government to adopt and legislate poverty reduction targets and timelines, and commit to implementing a comprehensive action plan.

We recommend the following targets and timelines:

- Using Statistics Canada's low-income cut off after tax (LICO-AT), reduce BC's poverty rate from 13 per cent to 9 per cent in four years, and to 3 per cent in ten years (meaning, effectively, a one third reduction within this government's mandate, and a 75 per cent reduction within a decade).
- Ensure the poverty rate (using the LICO-AT) for children, lone-mother households, single senior women, Aboriginal people, people with disabilities, and recent immigrants likewise declines by 30 per cent in four years, and by 75 per cent in ten years, in recognition that poverty is concentrated in these populations.

- Within two years, ensure that every British Columbian has an income that reaches at least 75 per cent of the poverty line (using the LICO-AT).
- Within two years, ensure no one has to sleep outside, and end all homelessness within eight years (ensuring all homeless people have good quality, appropriate housing).

In order to achieve these targets, we call upon the province to commit to specific policy measures and concrete actions in each of the following policy action areas.
