

MOTION ON NOTICE

B.2

2. Improving Late-night Transit Service in Vancouver

MOVER: Councillor Geoff Meggs

SECONDER:

WHEREAS

1. Expanded late-night transit service is a key priority for Vancouver transit riders;
2. Groups including post-secondary students, the Vancouver hospitality industry, and the Canadian Autoworkers have called for increasing late-night transit service in Vancouver;
3. Late-night bus service is vital for shift workers across the region and for visitors to the Granville Entertainment District, when taxi service is at a premium;
4. TransLink's Moving Forward 2012 Supplemental plan includes additional funding to increase bus service in Vancouver;

THEREFORE BE IT RESOLVED THAT the Mayor, as the City's representative on the TransLink Mayors' Council, direct staff to work with TransLink to develop options to increase the frequency and duration of late-night bus service as soon as possible within existing budget levels.
