SUBJECT: 807 Powell Street - I-2 Rezoning: Update on the Status of Rezoning Applications in the Downtown Eastside during the Local Area Planning Process (LAPP)

This memo provides Council with an update on all rezoning applications under active consideration in the Downtown Eastside (DTES), per the *Interim Rezoning Policy during the Preparation of the Downtown Eastside Local Area Planning Program (LAPP)*. The *Interim Rezoning Policy*, adopted on March 28, 2012, establishes the conditions under which new rezonings will be considered while the LAPP is underway. In addition, the policy requires that an update on active rezoning applications be provided to Council when they consider new applications, as per below:

*Any rezoning applications that proceed to Council will include an up-to-date accounting of the status of any and all applications under active consideration in the DTES. This allows Council to better understand the pace of development taking place.*  
(under Application and Intent, pg 2)

To meet this requirement of the policy, the table below summarizes active rezoning applications currently under consideration in the DTES.

<b>Active Rezoning Applications in the DTES</b>

One of the applications (807 Powell) listed in the table above was made prior to start of the LAPP and is not subject to the *Interim Rezoning Policy*.

The proposal for 41 East Hastings Street meets Policy 3 by providing 60% social housing, and the proposal for 970 Union Street meets Policy 2 by providing a benefit to the community in the form of an expansion to an existing, non-profit owned, care facility. The proposal for 720 E. Hastings Street meets Policy 2 by providing a public library and Policy 3 by providing 100% social housing.

For Council's information, the following table summarizes the housing types and unit mix proposed in the rezoning applications under active consideration:
