

MOTION ON NOTICE

# B.5

5. Review and Enhancement of Granville Entertainment District

MOVER: Councillor George Affleck

SECONDER:

WHEREAS

1. The City of Vancouver is concerned about the level of engagement of residents, with each other, and with the various levels of government;
2. The Granville Entertainment District's history is vibrant and is a focal point for fun and entertainment in the city;
3. In 2010 the District received a major renovation that saw many beneficial aspects created that enhanced the area; however, other aspects, including obtrusive parking bollards, are considered to be less positive for the area;
4. The District is successful at attracting late night patrons, but is less successful at becoming a dining destination.

THEREFORE BE IT RESOLVED THAT staff consult with the Downtown Vancouver Business Improvement Association and other pertinent stakeholders to provide an update on the Granville Entertainment District with a view to:

- 1) Reviewing the parking situation on the street;
- 2) Providing options for enhancing the dining experience on the street, including allowing greater use of the street for outdoor dining by neighboring food establishments;
- 3) Reviewing other potential upgrades and opportunities for the area.
