Comments:

I don't live in the area but stopped by the open house on a whim. Wow! I spend a lot of time on Main Street, shopping or eating or hanging out and I think the proposed rezoning is perfect. What a great addition it would be to an already thriving community.

Susanna

Comments:

I think the proposed rezoning is the ideal way to fill in that block. I went to the open house this Spring and really thought that the live/work, artist studio units were a great addition to the neighbourhood. It's really the kind of creative design that fits so perfectly on Main Street.
