Mayor and Council
City of Vancouver
453 West 12th Avenue
Vancouver, B.C. V5Y 1V4

Dear Mayor Gregor Robertson and Councillors:

Re: Rezoning Application at 998 Expo Boulevard from BCPED to CD-1

It is our understanding that the above Rezoning Application would yield residual benefits to the Revitalization of Chinatown, among a number of community amenities. It is understood that the proponents would provide their property at 58 West Hastings to the City as a part of the Community Amenity Contribution.

This site of approximately 400 – 500 small, self-contained new social housing, along with other health facilities. In turn, these units could accommodate the residents currently housed in sub-standard SROs in a number of buildings, including some Chinatown Society Heritage Association Buildings in HA-1, HA-1A Zoning (Chinatown).

As the City and the current Council have been ardent supporters of the Chinatown Revitalization Programme for more than the last decade, this is an opportunity to make significant progress on providing new, adequate, and self-contained SRO units with private washrooms and kitchenettes. This would allow the then vacant Heritage Association Buildings to be restored.

Thus, this is a letter in support of the above-named Rezoning application.

Thank you for your consideration.

Yours very truly,

JOE Y. WAI ARCHITECT, INC.

Joe Y. Wai, Architect AIBC, FRAIC, DLitt

Vancouver, BC V5Y 1V4

Attention: Mayor Gregor Robertson & Council
Reference: Rezoning Application for 998 Expo Boulevard (Concord 5B West)

Dear Mayor & Council:

The rezoning application for 998 Expo Boulevard offers the City a number of public amenities including 40,000 SF of transferable heritage density from the City's Heritage Amenity Bank which came from the 2009 Pennsylvania Hotel heritage restoration. The Portland Hotel Society (PHS) is a non-profit association and is the owner of the Pennsylvania Hotel. We are pleased to provide our support for this public amenity and are pleased to provide some context to this public amenity.

The Pennsylvania Hotel is located at the corner of Carrall and Hastings in the downtown eastside. It was built in 1906 and for years it operated as a prominent hotel in Vancouver's downtown eastside. By the turn of the century it was suffering from years of neglect and was in need of major repairs. The PHS acquired the Pennsylvania in 2001 with the aim of restoring it to its former heritage glory, and with a new and important housing role in the community. Under the energy and dedication of the PHS the Pennsylvania Hotel reopened in 2009 after undergoing a \$14 million heritage restoration. This work was funded by the Government of Canada, the Province of BC, the City of Vancouver, PHS, Metro Vancouver, and Concord Pacific. The PHS operates the Pennsylvania Hotel providing 44 self-contained studio apartments of supportive housing for existing DTES low-income residents who do not have adequate housing.

The PHS is extremely proud of the Pennsylvania Hotel and is very thankful to our partners who provided the funding to make this heritage restoration and housing project a reality. This includes the heritage density that Concord Pacific is now using as a public amenity in the rezoning application for 998 Expo Boulevard. We are thankful for Concord Pacific's role in this project.

Yours truly,
Portland Hotel Society

Subject: proposed boathouse in false creek

Dear Mayor Robertson and council,

I am writing in support of the community boathouse on the east end of false creek because I am a dragon boater.

I started paddling since the 90's and have found that this sport is one of few where old can compete on level fields with young. visual handicapped often win against sighted teams. the diversity and community spirit this sports brings out the best in the city and its people.

one of the problems i encounter with the present facility is that hours of operations do not necessarily accommodate those who works, or have schedules that are not within regular business hours.

i would like to keep dragon boating on false creek. a community boathouse is a wonderful way to make this happen.

sincerely,
alex kwok.

4th June 2014.

Dear Mayor Robertson and Council,

As a resident and business owner in the Fairview Slopes /False Creek area I would like to offer support for above noted application that offers a contribution to a community facility for paddlers in False Creek, and an additional asset to the City of

Vancouver.

It seems that the Dragon Zone Paddling clubs offer a wonderful chance for people to get out on the water, regardless of financial circumstances or age.

In the light of the councils concern towards Green Space (which I also fully support) there is ample opportunity to embrace Blue Space (meaning our inland waterways).

I hope that this letter is of help in your approval for the above application.

Yours Faithfully,

Robin Lugg

Hello mayor and council,

I strongly support the boathouse and new dock.
I am a dragon boat paddler at creekside and at Granville island.
I have been paddling for almost 7 years and had seen HUGE growth in the paddling community!

Paddling is for all age groups. I have my son and nephew paddling on my team for the last couple of years. So good to have a team sport that can involve people of all ages!!

Please cast my vote for a new boathouse and dock!

It sure makes sense considering the growth of the paddling community!!

Sincerely,

Lena Jung

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

I am a resident of British Columbia, kayaker, nature lover, and am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

The Dragon Zone Paddling Clubs provide people with the opportunity to get out in dragon boats every year, regardless of their financial situation. This community amenity will provide stability and a focal point for people taking part in dragon boat sports and paddling on False Creek.

I hope that you will approve this application and make the paddling facility a reality.

Yours sincerely,

Pierre Dubeau

Subject: My support for the Community boat house

Dear Mayor and Council of the City of Vancouver

I would like to see a community boat house at the False Creek in the very near future.

Paddling is a great activity during the warm six months in the beautiful Vancouver water areas.

The sport and the community boat house are easily accessible in many ways - public transportation access, affordability, and requires little athletic abilities for enjoyment. Also, due to the many fine bars and restaurants in this area, this would be a great venue for a day of exercise and some fine drinking/dining afterwards, hence more economic benefits.

Since the Vancouver Dragon Boat Festival has become a world renown event, a community boat house would not only benefit the festival but also strengthen the branding of our beautiful city.

We need more activity based, economical venues for this city.

Or by email: mayorandcouncil@vancouver.ca

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility

I am a resident and am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

While it is a sport that arose from eastern origins, The Rio Tinto Alcan Dragon Boat Festival is now known as a showcase for multiculturalism. Over 70 dragon boat teams practice at Dragon Zone – they are male and female, young and old, athletic and not-so-athletic – meaning that about 2800 people regularly use the make-shift facilities now. As a result, it is the largest dragon boat festival outside China, and a much-anticipated annual event held on the city's waterfront.

The Rio Tinto Alcan Dragon Boat Festival has become synonymous with Vancouver for many years. Ensuring that the paddling facility plans go ahead will assist in weaving the sport and event together even more with our city.

I urge you to strongly consider supporting the re-zoning application.

Yours sincerely,

Susan Fong

Dear Mayor and City Council,

I work in the area of this proposed building. I think it is long overdue. It would be nice to have the empty parking lots developed as they are the 1st things you see as you come over the Cambie bridge. Vancouver is such a beautiful city but not in this area as it looks unfinished.

From the details given it looks like Concord is proposing to build another Awesome looking building. More Residential and Commercial units are definitely needed.

I support this application for Re-zoning.

Thanks!

C. Sargent

Subject: 5BWest

Hello,

I just reviewed the information on Concord Pacific 5B west rezoning. As a resident of downtown Vancouver close to this potential location, I think this would be an asset to the area!

The parking lot there now is an eye sore and often is frequented with homeless people and can be a dangerous area at night to a single girl such as myself and many others.

Thus I am sending you this email as my support of this rezoning!

Thank you for your attention!

Jenny

Subject: Concord Pacific 5B West Rezoning

Dear City Council,

I am writing in support of the 5B West Rezoning proposal. I work in the downtown Yaletown area and believe that building more highrises in the neighborhood would definitely promote urban growth and density in an already beautiful city!

I can't think of a better use for an empty parking lot than to build a new high rise. More residents living in the area would mean businesses and other services in the local community will flourish. It's a win/win situation!

Thank you for your time and consideration into this matter.

Yours Truly,

Mary Tsang

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

I am a Vancouver resident, avid kayaker (member of the Sea Kayak Association of BC) and former Dragon boat member of the Kettle Friendship Society team. I am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

I meet with and paddle with SKABC at Creekside and enjoy the dragon boat camaraderie that exists among paddlers. When I was paddling with the Kettle Friendship Society dragon boat teams I realized how important it was to provide opportunities to people with mental health issues in accessing on the water experiences. The Dragon Zone Paddling Clubs provide people with the opportunity to get out in dragon boats every year, regardless of their financial situation. This community amenity will provide stability and a focal point for people taking part in dragon boat sports and paddling on False Creek.

I hope that you will approve this application and make the paddling facility a reality.

Yours sincerely,

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

I am a resident, paddler and home owner in Vancouver and am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

- Come to our paddling club, Dragon Zone at Creekside, any afternoon or evening and the crowds, noise and activity will demonstrate how popular the sport of dragon boating has become.
- I met and fell in love to the beat of a dragon boat drum.
- The Dragon Zone Paddling Clubs provides thousands of people with the chance to get out on the water every year, regardless of their financial situation.
- Paddlers are warm and welcoming.
- Over 70 dragon boat teams practice at Dragon Zone, meaning that about 2800 people regularly use the make-shift facilities now.
- I love to paddle one of the kayaks and discover Vancouver from the water. It provides me with a whole different perspective.
- The age of dragon boaters on teams ranges from 15 to their early 80s.
- I didn't think I had an athletic bone in my body but thanks to paddling I'm working out three times a week.
- This community amenity will provide stability and a focal point for people taking part in this growing sport and will keep paddling on False Creek.
- People say kids don't get enough exercise these days – not in our world! We have 32 junior teams (high school age) and many practice twice a week out of Dragon Zone.
- Dragon Zone holds special events for children at inner city schools to try dragon boating. Children and their teachers have taken part in these occasions which include a chance to paddle a dragon boat. For some it was their first time in a boat!
- A community facility for water sports fits with *Vancouver's Healthy City Strategy* as it integrates environmental, economic and social needs of a growing city.
- The *Vancouver Sport Strategy*, created through community consultation, presents six strategic goals. A community boathouse on False Creek and the network and opportunities it would present aligns with each of these six strategies.
- The Rio Tinto Alcan Dragon Boat Festival has grown from its roots as a showcase for multiculturalism in 1986 to a vibrant, large, much-anticipated annual event on the city's

waterfront. Several years ago it became – and remains - the largest dragon boat festival outside China.

- Green space in the city is disappearing. What better time to focus on our blue space?
- I believe that a facility that will make paddling more accessible would be a wonderful addition to the community and the City.
- Paddling is environmentally friendly, causing minimal impact to the environment.
- Paddling is a great sport for individuals of any age.

I hope that you will approve this application and make the paddling facility a reality.

Yours sincerely,

Valerie Wingham

Vancouver, BC V5Y 1B4

Dear Mayor Robertson and Council:

RE: Re-zoning application for 998 Expo Boulevard and boating (or boathouse facility (or boathouse, or paddling centre)

I am a locally born resident of Vancouver and writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

As a former paddler, coach and current Chair of the Rio Tinto Alcan Dragon Boat Festival, I strongly believe that a boathouse facility will make paddling more accessible and an important addition to our community and throughout the Lower Mainland.

A community facility for water sports fits in line with Vancouver's Healthy City Strategy as it integrates environmental, economic and social needs of a growing city. This community amenity will also provide stability and a focal point for people (age range from 15 to 80) taking part in this growing sport and will keep paddling in False Creek.

I hope you will approve this application and make the paddling facility a reality on False Creek. It has been a long process, but know that good things will happen to those (paddlers) who wait !

Sincerely,

Peter Wong

Subject: The 998 Expo Boulevard Rezoning / 5 B West Rezoning

Hi, Mayor and Council,

I have lived in Vancouver almost 35 years. I have seen how False Creek North, Yaletown and Coal Harbour changed in the past 20 years. I would like to thank all of you to transform the areas so well.

My family and friends are very enjoyed to the convenience in the area. I occasionally take a Canada Line and work in Yaletown location (179 Davie Street). It shall force me to walk and do my exercise. At the same time, I save some money on parking and keep the city a bit cleaner by not driving.

I personally would like to support the 998 Expo Boulevard Rezoning. This area shall provide more convenience to all residents. Residents can walk to either Canada Line or Skytrain station. It took less than 10 minutes walk to either stations. It shall save time on transferring from one station to another station. It shall encourage more residents to take the public transportation.

On a raining day, walking from 998 Expo Boulevard area to Skytrain station is very enjoyable as BC Place provides a covered pedestrian road.

I drive my car all the time in the past. Owing to convenience in Yaletown & Downtown, I take both Canada Line and Skytrain occasionally. Then, I understand how relax to take public transportation and at the same time I strengthen myself by walking a bit more.

Now, I occasionally take Canada Line and skytrain to airport, Richmond and Surrey. Thanks very much for your effort to change my habits in a positive way.

I hope that more people shall benefit what you have done in my life. So therefore, I would like to support the rezoning located at 998 Expo Boulevard.

Salina Veerman

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

I am a resident who loves Vancouver and I am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

My late father, the Honourable Dr. David C. Lam, the former Lieutenant Governor of BC, together with the late Dr. Milton Wong, both had a dream of starting a festival that would bring people of all different cultures together and become a wonderful Vancouver tradition. Their dream has become a reality and so much more.

I, myself, was also actively involved with the early years of the Festival, bringing in international teams and serving on the Festival board. I can see that the dragon boat festival has continued to be a positive venue, which brings together people of all different backgrounds, ages and abilities.

Young and old, paddling, staying active, enjoying and learning from each other. What better image for a city that promotes healthy and environmentally friendly living. I believe that a facility that will make this great sport of paddling more accessible would be a wonderful addition to our community and the city we love.

I hope that you will approve this application and make the paddling facility a reality. Thank you for reading my letter.

Yours sincerely,

Doreen Lam Lau

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

Over my 55 years, I have been a resident, home owner, and business owner in the City of Vancouver, as were my parents and their parents and many of my extended family. As a proud Vancouverite, British Columbian and Canadian, I am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

When I think of Vancouver I think of the natural beauty and the diversity of our communities. To me nothing embraces this vision more than the sport of dragon boating. From the connection to nature when paddling to the sense of community it fosters with all that you come into contact. It is the quintessential East meets West experience.

I am co-captain of the Dragon Zone Paddling Club Team, "Eye of the Dragon", and joined the team in 2006 looking for a way to firm up my Pillsbury doughboy physique and make some friends. I found both and much more. Including a bride and two unexpected gifts, Jack (6) and Sam (4). The Team is currently the Canadian National Crew Club Champions in the Mixed Partly Sighted racing division and headed on to Revenna Italy in September to represent our Team, Club, City, Province and Country at the World Crew Club Championships. Not bad for an old blind guy.

I cannot think of a better tribute that reflects the important place dragon boating holds in Vancouver or as a lasting gift to future generations, than the boathouse. I hope that you will approve this application and make the paddling facility a reality. We've been waiting a long, long time. The creek is our park, let's make it happen.

Yours sincerely,
David Brun

Dear Mayor Robertson and Council,

RE: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

We are paddlers and we are writing to voice our support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

We are involved in a school dragon boating team and have greatly enjoyed paddling at False Creek because of the community atmosphere, beautiful scenery, and improvements to our physicality. We like dragonboating especially because it has helped us form life long friendships with people we would not have befriended otherwise. We have also fallen in love with the way the dragon boat drum beats with our hearts as we dip our paddles into the sweet False Creek waters right here at False Creek. We know this love will continue to grow as the community in time with the boathouse development flourish. We think a boathouse would be very useful for such things as storing boats and housing an indoor paddling centre while being beautiful lanterns on the night shoreline.

We hope that you will approve this application and make the paddling facility a reality. We've been waiting a long, long time.

Yours sincerely,

RE: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

I am a (resident, paddler, citizen, home owner, business owner, other) and am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

With a year of being a paddler of Dragon zone, dragon boating has been my main recreation sport. And as a water sports at false creek, paddlers are able to both enjoy the beautiful scenery and sun. On top of that the paddling community is increasing and expanding very quickly. Therefore a new boathouse would needed in order to contain the growth of paddler. I hope that you will approve this application and make the paddling facility a reality. We've been waiting a long, long time.

Yours sincerely,
Samuel Lu

To Gregor Robertson and Council;

Re: Recreational water sports on False Creek

It has come to my attention that the City of Vancouver is going ahead with development of the area between dragon zone, at Science World and along Creekside. I am also very excited that the Vancouver Parks Board just announced on May 12th that they are making improvements to the paddling area at Creekside. In my opinion it is not enough.

As an avid Dragon boater I am very concerned, that development may take precedence over water sports, leaving no room to be altered later. I have been paddling for over 8 years and it has literally saved my life and built a higher quality of life for my family. I am also concerned about the out riggers, kayaks, long boats or warrior boats and all other water sports in False Creek.

I would like to know why The city of Vancouver will do every thing for bicycle riders. The City was able to create Habitat Island for birds. How about a big water sports entertainment area. I must ask, is it not discrimination to develop for one sport and not another?

I would like to suggest, If the city feels it can not designate the area by Creekside for all water sports, that The City start a committee especially for water sports and work on finding the ideal site along the water front until they find the perfect solution for everyone concerned. Water sports can not go neglected any longer.

When I started dragon boating I was suffering from severe depression. Dragon boating opened up my life and gave me reason for celebrate living. I have always been a water person and the personal challenge behind the paddle has developed me into a person with high self esteem. I was crippled in a car accident when I was nineteen, making it very painful for me to run or ride a bike. Other than painful slow walking and swimming I felt doomed. Once I started dragon boating I met wonderful people who understood my situation. My family saw my change which

has brought about great new developments in their lives. I have met many people on the water with life challenges and I am amazed how quickly they heal from water sports.

I do not know much about out riggers, paddle boarding, kayaks, long boats and canoes etc., and what I do know is that most of these activities are done through out the world, and we are ambassadors for our country.

I am begging you to please consider water sports before it is to late. I would also like to invite you out for a paddle to see what you are neglecting.

I know that myself and people on my team would be happy to meet with the city developers and help you devise a plan that will work for everyone involved.

'Namwayut We are all one. Journey for Reconciliation. I was there.

copy of this letter out to; Terry Hui, Concord Pacific.

Dear Mayor Robertson and Council:

I am a paddler and am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek. I started paddling earlier this year, and I instantly fell in love with the sport. The paddlers are warm and welcoming, and Dragon Zone Paddling Clubs provide thousands of people with the chance to get out on the water every year, regardless of their financial situation. There are over 70 dragon boat teams that practice at Dragon Zone, meaning that about 2800 people regularly use the make-shift facilities. People say that teenagers don't get enough exercise these days — not in our world! We have 32 junior teams (high school age) and many practice twice a week out of Dragon Zone. Paddling for one of these teams has really helped me develop a sense of community and take team work to a whole new level. This community amenity will provide stability and a focal point for people taking part in this growing sport and will keep paddling on False Creek.

The green space in our city is disappearing, so what better time than this to focus on our blue space? I believe that paddling is environmentally friendly, causing minimal impact to the environment and a great sport for individuals of all ages.

I hope that you will approve this application and make the paddling facility a reality. We've been waiting a long-long time.

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling center)

I am writing regarding the re-zoning of 998 Expo Boulevard including the support of the community boat house on the east end of False Creek because I am a paddler who likes to compete at False Creek Regattas and I enjoy the atmosphere of the paddling docks there very much. It's been an amazing experience so far paddling with my community and I wish to keep it up for the years to come.

I started paddling dragon boat for fitness and health and I have kept doing it because it makes me feel good. Dragon boat helps me because it provides me with a couple hours of physical activity each week and it keeps me healthy.

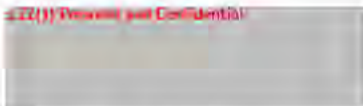

I have met wonderful friends because of Dragonboat. The community is great and I have formed many friendships.

One of the problems I face with the present facilities is too small and we need more space. The containers are overcrowded and retrieving outriggers and paddling gear is sometimes very difficult. In difficult weather conditions, most of the time raining because of Vancouver climate, it becomes very dangerous to remove material to and from the docks and the containers and the small space does not help our paddling needs. A new boat house would make it more convenient for thousands of paddlers in our community.

I would like to keep dragon boating on False Creek. A community boathouse is a wonderful way to make this happen. It can bring joy to a wonderful paddling community and is greatly appreciated.

Yours Sincerely,

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling center)

I am currently a paddler at Dragon Zone paddling out of Creekside Community Center. Paddling has become a big part of my life and a good source of my daily physical activity and exercise. I not only dragon boat but I also participate in various other types of paddling activities.

The boat houses are a good idea because it helps strengthen and build a stronger paddling community and I am 100% in full support for the new boathouses at False Creek.

The new boathouses can benefit not only myself as an individual but also various other residents as well such as seniors. Dragon boat is not only a sport for adults but it is also for juniors all the way to seniors, women, corporate teams and everyone who wants to connect with others as well as exercise.

The boat house is a worthwhile investment and should be followed through.

Please take into consideration helping install this new boat house for the paddling community, thank you!

Sincerely,

I am currently a paddler at Dragon Zone paddling out of Creekside Community Center. Paddling has become a big part of my life and a good source of my daily physical activity and exercise. I not only dragon boat but I also participate in various other types of paddling activities.

The boat houses are a good idea because it helps strengthen and build a stronger paddling community and I am 100% in full support for the new boathouses at False Creek.

The new boathouses can benefit not only myself as an individual but also various other residents as well such as seniors. Dragon boat is not only a sport for adults but it is also for juniors all the way to seniors, women, corporate teams and everyone who wants to connect with others as well as exercise.

The boat house is a worthwhile investment and should be followed through.

Please take into consideration helping install this new boat house for the paddling community, thank you!

Yours Sincerely,

(201) Personal and Confidential

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling center)

I am writing regarding the re-zoning of 998 Expo Boulevard including the support of the community boat house on the east end of False Creek. It is an amazing experience competing at False Creek Regattas and I enjoy very much the atmosphere of the paddling events held there. I hope these events continue long into the future.

I am a paddler from Fort Langley Canoe Club with approximately 500 members, with many of the teams racing at False Creek. False Creek holds many regattas over the spring and summer period available for many teams throughout the province. Our team Fast and Furious, paddles competitively 3 times a week on water, to prepare us for the famous Rio Tinto Alcan Dragonboat festival held at False Creek with 20,000 spectators annually and 200 teams nationwide.

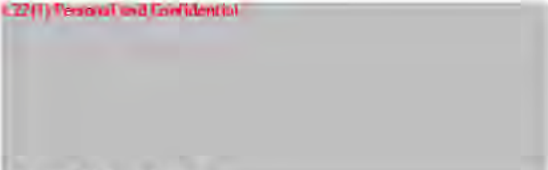

Dragon Zone and Creekside Paddling center is now over 25 years old and the Dragonboat sport is now the fastest growing water sport in the world. Due to the overwhelming popularity of this sport the current size of the dock facilities are outdated, too small and unsafe for the competitors and recreational groups.

As a competitive Dragonboat paddler, I am seeing the continual growth of this sport here in Vancouver and as well as in other areas province-wide. A new paddling center is essential for the growth of Dragonboating and all other paddling sports.

I am in full support of the False Creek new paddling center phase 1.

Sincerely,

(2211) Personal and Confidential

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling center)

I am writing regarding the re-zoning of 998 Expo Boulevard including the support of the community boat house on the east end of False Creek. It is an amazing experience competing at False Creek Regattas and I enjoy very much the atmosphere of the paddling events held there. I hope these events continue long into the future.

I am a paddler from Fort Langley Canoe Club with approximately 500 members, with many of the teams racing at False Creek. False Creek holds many regattas over the spring and summer period available for many teams throughout the province. Our team Fast and Furious, paddles competitively 3 times a week on water, to prepare us for the famous Rio Tinto Alcan Dragonboat festival held at False Creek with 20,000 spectators annually and 200 teams nationwide.

Dragon Zone and Creekside Paddling center is now over 25 years old and the Dragonboat sport is now the fastest growing water sport in the world. Due to the overwhelming popularity of this sport the current size of the dock facilities are outdated, too small and unsafe for the competitors and recreational groups.

As a competitive Dragonboat paddler, I am seeing the continual growth of this sport here in Vancouver and as well as in other areas province-wide. A new paddling center is essential for the growth of Dragonboating and all other paddling sports.

I am in full support of the False Creek new paddling center phase 1.

Sincerely,

(22/11) Personal and Confidential

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility

I am a resident of Vancouver and a junior paddler. I am writing to voice my support of the above noted application that contains a contribution to a community facility for paddlers in False Creek.

Visitors to Dragon Zone at Creekside during afternoons and evenings will see that dragon boating is a very popular sport. It began at Expo '86 with only 18 teams competing. Now, it has grown to be the largest dragon boat festival outside of China and there are over 70 teams practicing at Dragon Zone alone. We want to keep it this way and grow the dragon boat community. Already there are close to 2800 people regularly using the make-shift facilities at False Creek. These teams range from 15 year olds to people in their 80s. 32 teams out of the 70 are junior teams and all paddlers have dedicated a lot of time and effort to this sport. This wide age range shows that paddling is a great sport for individuals of any age. We believe that a boating facility will make paddling accessible to more than 2800 people. It will be a wonderful addition to the City and our community.

I hope that application will be approved and the paddling facility will be a reality. We've been waiting a long-long time.

Yours sincerely,

Dear Mayor Robertson and Council:

Re-zoning application for 998 Expo Boulevard and boating facility

I am a paddler and am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

Come to our paddling club, Dragon Zone at Creekside, any afternoon or evening and the crowds, noise and activity will demonstrate how popular the sport of dragon boating has become. The Dragon Zone Paddling Clubs provide thousands of people with the chance to get out on the water every year, regardless of their financial situation. Over 70 dragon boat teams practice at Dragon Zone, meaning that about 2800 people regularly use the make-shift facilities now. This community amenity will provide stability and a focal point for people taking part in the growing sport and will keep paddling on False Creek. Also, I believe that a facility that will make paddling more accessible would be a wonderful addition to the community and the City.

Yours sincerely,

Kathy Hong

May 23, 2014

Dear Mayor Robertson and Council,

As a resident of Vancouver and dragon boat paddler, I am writing to support the re-zoning of 998 Expo Boulevard with regard to the construction of a boat house in False Creek. It is not only vital to active residents and paddlers but also the local water sport industry. Fitness and health is a major aspect of living in Vancouver and constructing a boat house would further promote tourism, and improve the overall experience in water sports.

Yours truly,

Or by email: mayorandcouncil@vancouver.ca

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

I am a junior paddler and am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

I frequent Dragon Zone at Creekside twice a week, and practice with a junior team. I am not athletic at all, but thanks to paddling I feel my fitness has improved. When I joined I was relieved to know I did not have to be super fit, showing that anyone could join. Since then I met many motivated and strong people, including encouraging coaches.

Dragon boating is a great sport – it is available to anyone, regardless of age, sex, culture, religion, sexual orientation, mental or physical abilities, or ability to pay. The age of dragon boaters on teams ranges from 15 to early 80s, and the Dragon Zone Paddling Club provides thousands of people with the chance to get out on the water every year, regardless of their financial situation. In fact, over 70 dragon boat teams practice at Dragon Zone, meaning that about 2800 people regularly use the make-shift facilities now. We even have 32 junior teams within the number of teams which have teenaged members.

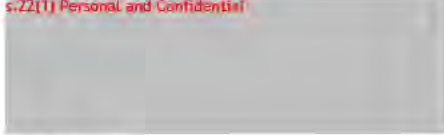

A new boathouse should be in place because dragon boating benefits Vancouver hugely. It integrates environmental, economic and social needs of a growing city. Since green space in the city is disappearing, by focusing on the blue space we use effectively the space we have. Paddling is environmentally friendly, and also represents multiculturalism in Vancouver. The Rio Tinto Alcan Dragon Boat Festival has grown from its roots as a showcase for multiculturalism in 1986 to the largest dragon boat festival outside China. Keeping and improving this community amenity will provide stability and a focal point for people taking

part in this growing sport and will keep paddling on False Creek.

I hope that you will approve this application and make the paddling facility a reality. We've been waiting a long-long time.

Yours sincerely,

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

I am a high school student and a paddler writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

My team is my family away from home and I've found a community of friends. The Dragon Zone Paddling Clubs provides thousands of people with the chance to get out on the water every year, regardless of their financial situation. Paddlers are warm and welcoming. Over 70 dragon boat teams practice at Dragon Zone, meaning that about 2800 people regularly use the make-shift facilities now. I love to paddle and discover Vancouver from the water. It provides me with a whole different perspective.

I didn't think I had an athletic bone in my body but thanks to paddling I'm working out three times a week. This community amenity will provide stability and a focal point for people taking part in this growing sport and will keep paddling on False Creek.

A community facility for water sports fits with Vancouver's Healthy City Strategy as it integrates environmental, economic and social needs of a growing city. The Vancouver Sport Strategy, created through community consultation, presents six strategic goals. A community boathouse on False Creek and the network and opportunities it would present aligns with each of these six strategies.

I believe that a facility that will make paddling more accessible would be a wonderful addition to the community and the City. I hope that you will approve this application and make the paddling facility a reality. We've been waiting a long-long time.

Yours sincerely,

Joana Lee

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

I am a paddler for Ouroboros Platinum, the Sir Winston Churchill Secondary School dragon boat team, and am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek. Although I have not been paddling for very long, ever since I joined my high school dragon boating team, I have enjoyed the experience very much. I believe dragon boating is a great way to do exercise for everyone and it is also reasonably priced compared to other ways to improve fitness such as hockey (I love hockey, but it really is expensive). It is also a great way to socialize with others as well. When I joined my team, I didn't know very many people on the team, but everyone was friendly and I quickly made some new friends that I enjoy spending my time with. Right now, the facility that is there is very crowded and space for storage such as lockers is very limited. Often, we have to put as many of our belongings in one locker as possible and sometimes even that isn't enough. I hope that you will approve of this application and make the paddling facility a reality.

Yours sincerely,

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

I am a paddler and steersperson and am writing to voice my support of the above noted rezoning application that contains a contribution to a community facility for paddlers in False Creek.

I believe that such a unique sport will help a variety of age groups become more active both physically and mentally. I am speaking from experience when I say that children who may not be good at sports can find a second home here. Seniors can find a sport that is easier on their joints. This is a worthy investment of money and time.

I started paddling 8 years ago with Conquering Waves, a team make up of people with mental health issues and their supporters, and I now paddle on a team with vision impairment issues, and a senior (50+) team of women. I steer for many school groups trying out the sport, and many people taking introduction courses. It's great to see so many diverse groups of people being active in a social and exciting sport.

I hope that you will approve this application and make the paddling facility a reality. We've been waiting for a long long time.

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling center)

I am currently a paddler at Dragon Zone paddling out of Creekside Community Center. Paddling has become a big part of my life and a good source of my daily physical activity and exercise.

Dragonboat gives me more energy, and it forces me to use my upper body in which I would never use in other activities. Dragon boat is a great way to get with other people and avoid social isolation.

I think every single idea in the project is brilliant and everyone should take consideration for the approval of this project.

It will be a brilliant way to show the world what Canada is about. It is also a development for youth and the community.

I am 100% into this project.

Sincerely,

Dear Mayor Robertson and Council,

RE: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

We paddle for the PW Hornets and are writing to voice our support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

We have been dragon boating for 3 years and a new boathouse would be very beneficial to our team and our community. As dragon boating has become our passion, anything that would benefit this pastime of mine would benefit us. Although parks are great, this boathouse will give us the opportunity to share this sport with everyone, and it will be the first of its kind in Vancouver, which we desperately need. There is plenty of green space in the city in the form of parks. What better time to focus on our blue space? Thanks to dragon boating, we've become part of something bigger, and we hope that our efforts are not for naught.

We hope that you will approve this application and make the paddling facility a reality. We've been waiting a long, long time.

Yours sincerely,

Dear Mayor Robertson and Council,

This letter is directed to the new zoning plans at Creekside Community Centre. I don't really want to give you a life story but I'm a post-secondary student that has been paddling for two years now and it all started right here at Dragon Zone.

I've read the proposal for the new docks here at Creekside Community Centre and I think this would be a great improvement to the growing dragon boating community here in Vancouver.

I truly hope that you will approve of this plan and make Dragon boating an even larger success than it currently is.

Yours sincerely,

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

I am a boater living in Vancouver and am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers and boaters in False Creek.

I have been a lifetime boater, and enjoy the activity immensely. I'm retired now and get out on the water every day.

Originally from the east coast of Canada, I'm disappointed that in spite of Vancouver's world class reputation for dragon boat paddling, there is no community amenity that is equal to the size and reputation of the activity. It's a shame that there isn't a better facility in downtown Vancouver.

A community facility for water sports fits with *Vancouver's Healthy City Strategy* as it integrates environmental, economic and social needs of a growing city.

There is so much focus on green space, but I say, what better time to focus on our blue space? I believe that a facility that will make paddling and boating more accessible would be a wonderful addition to the community and the City.

I hope that you will approve this application and make the paddling facility a reality.

Yours truly, (b)(2)(1) Personal and Confidential

Dear Mayor and Council

Re: Rezoning of 998 Expo Boulevard and Boathouse

I am writing to you to express my approval for the building of a community boathouse and paddling centre to be located in False Creek. I come here every week and would love to see a new change, as it will attract more visitors and will increase people to have a desire to paddle. This sport has done a lot for me, particularly giving me life goals and great teamwork skills to train to be a winner. The people that work here have put all their efforts to make this sport great particularly the volunteers, and I think their efforts should be rewarded.

My regards, Jarell Alvarez

I, too, am writing to you to express my personal approval for this new center at Creekside. I am the captain and founder of the St. Thomas More Dragon Boat team(s). In the last two years, my school's passion for the sport of Dragon Boat has increased to a roster of over 50 members. For the last couple of years I have paddled twice weekly during the spring and summer months at Dragon Zone. This sport has done a great deal for my school and its individual's confidence and skills, providing better overall health and fitness. The current facilities are not at par for the future of dragon boating at Dragon zone and in BC. Just this year I have noticed a significant increase in teams and population at False Creek. The installment of this new center will dramatically increase the spirit and health of the community and athletes and will benefit future paddlers greatly.

All the best, Ryan Rickaby

Dear Mayor Robertson and Council,

I am writing regarding the re-zoning of 998 Expo Boulevard including the support of the community boat house on the east end of False Creek because I am a paddler who likes to compete at False Creek Regattas and I enjoy the atmosphere of the paddling docks there very much.

I started paddling dragon boat for fitness and health and I have kept doing it because it makes me feel good. Dragon boat helps me because it provides me with a couple hours of physical activity each week and it keeps me healthy.

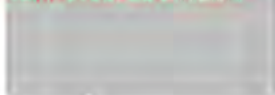

I have met wonderful friends because of Dragonboat. The community is great and I have formed many friendships.

One of the problems I face with the present facilities is too small and we need more space. The containers are overcrowded and retrieving outriggers and paddling gear is sometimes very difficult.

I would like to keep dragon boating on False Creek. A community boathouse is a wonderful way to make this happen. It can bring joy to a wonderful paddling community and is greatly appreciated.

Yours Sincerely,

Dear Mayor Robertson and Council,

RE: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

I am a paddler and am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

The Dragon Zone Paddling Clubs provides thousands of people with the chance to get out on the water every year, regardless of their financial situation. Over 70 dragon boat teams practice at Dragon Zone, meaning that about 2800 people regularly use the make-shift facilities now.

I hope that you will approve this application and make the paddling facility a reality. We've been waiting a long, long time.

Yours sincerely,

Silvana Goldemberg

Dear Mayor Roberston, the Right Honourable

Subject: 998 Expo Boulevard Re-Zoning

I am writing on behalf of all of the citizens of Vancouver who live, work and play around False Creek. The lifestyle false creek fosters an active, vibrant and sustainable existence. In 1986 the North American and the world was introduced to Dragonboat paddling on False Creek.

Recent reports released on CBC May 20, 2014 asking the question "are our kids lazy?". The programs delivered to the citizen of Vancouver from the community of paddling around false creek, provide for a healthy life style and would be a key element in the Chain of Survival (Health Canada). So not are we not only providing and low cost activity for youth but a community of care and support for all citizens of Vancouver.

We have the green land, bike lanes but nothing on of the iconic locations of Vancouver, False Creek. There is need for more people enjoying a non-motorized, accessible, on water solution for False Creek.

Sincerely,

s.22(1) Personal and Confidential

Dear Mayor Robertson and Council,

I am writing in support of the community boathouse on the east end of False because I am a dragon boater.

I started paddling [dragon boat, kayak, canoe, outrigger] for [fitness, to meet people, the completion] and I have kept doing it because it it represents Vancouver well and I love the health side of it. It is also a fantastic way to bring people together in a fun environment.

I have met Ann and Jack

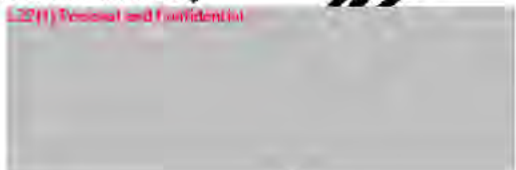

One of the problems I encounter with the present facilities is it is too small to accommodate the growing interest.

I would like to keep dragon boating on False Creek. A community boathouse is a wonderful way to make this happen and is a terrific way to add value to this area and Vancouver itself.

Sincerely/Truly,

Shawn Kennedy

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

I am a paddler and I have lived in Vancouver my entire life. I am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

-Come to our paddling club, Dragon Zone at Creekside, any afternoon or evening and the crowds, noise and activity will demonstrate how popular the sport of dragon boating has become. Dragon boat racing is the fastest growing team sport in the world.

-I am now on a competitive team that qualified to compete to represent Vancouver, Canada, and my club Dragon Zone at the world championships.

-Over 70 dragon boat teams practice at Dragon Zone, meaning that about 2800 people regularly use the makeshift facilities

-The age of dragon boaters on teams ranges from 15 to their early 80s.

-I was not very athletic before but thanks to paddling I am working out three times a week.

-This community amenity will provide stability and a focal point for people taking part in this growing sport and will keep paddling on False Creek.

-People say kids don't get enough exercise these days – not in our world! We have 32 junior teams (high school age) and many practice twice a week out of Dragon Zone.

-Dragon Zone holds special events for children at inner city schools to try dragon boating. Children and their teachers have taken part in these occasions which include a chance to paddle a dragon boat. For some it was their first time in a boat!

-A community facility for water sports fits with Vancouver's Healthy City Strategy as it integrates environmental, economic and social needs of a growing city.

-The Vancouver Sport Strategy, created through community consultation, presents six strategic goals. A community boathouse on False Creek and the network and opportunities it would present aligns with each of these six strategies.

-The Rio Tinto Alcan Dragon Boat Festival has grown from its roots as a showcase for multiculturalism in 1986 to a vibrant, large, much-anticipated annual event on the city's waterfront. Several years ago it became – and remains - the largest dragon boat festival outside of China. Over 200 000 spectators watch the races, with over 200 teams of at least 22 people.

-Green space in the city is disappearing. What better time to focus on our blue space?

-I believe that a facility that will make paddling more accessible would be a wonderful addition to the community and the City.

-Paddling is environmentally friendly, causing minimal impact to the environment.

-Paddling is a great sport for individuals of any age, so a new facility will help everyone at Dragon Zone as well as competitors and spectators at the Rio Tinto Alcan Dragon Boat Festival.

I hope that you will approve this application and make the paddling facility a reality. We've been waiting a long-long time.

Yours sincerely,

Dear Mayor Robertson and Council,

I am writing in support of the community boathouse on the east end of False Creek because I am a coach of a high school dragon boat team that has been paddling out of Dragon Zone since 1995.

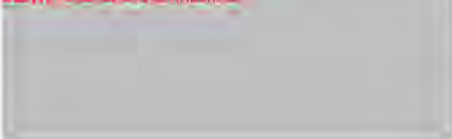

Over the last 19 years, I've coached literally thousands of teenagers in dragon boating, and seen them grow up to continue paddling as adults. Not only have these kids and adults incorporated exercise and healthy living into their lives in a fun and exciting way, they have developed friendships, team work, and leadership skills that have served them way beyond just their own lives, but in their contributions to the community. It all started with the opportunity to paddle in beautiful False Creek. The benefits of a boathouse are worth every penny of the city's investment.

We started out with a few boats tied to the dock at the Plaza of Nations and a wooden container for pfd's, but the paddling community of Vancouver has grown exponentially over the years to the point where we really need a boathouse to house the equipment and maintain a high level of paddling opportunity in this city. Leaving the boats out in the elements year round has resulted in the erosion of the boats, boats that we use year round.

I truly hope that you will approve the application for the long-awaited boathouse. My students past, present and future, and I thank you.

Yours sincerely,

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

Dear Mayor and Council,

I am a paddler who is writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek. To be honest with you all, I'm not even a Vancouverite, nor am I over 18. Behind this letter is a 15 year old Burnaby student who makes his way down to the Dragon Zone Paddling Club 3-4 times a week to paddle my heart out. I, with many others outside of Vancouver, make the long journey to False Creek often more than once a week to enjoy the water, vigorous exercise, and the many friendships that the sport of dragon boat has provided us. This is only my third year paddling but I'm sure that there's still many more years in my future that involve me paddling these waters and having this boathouse built would really help not only me, but also the hundreds of paddlers who regularly practice here and the thousands that come to visit at regattas! I know that this project will cost a lot (4.2 million dollars the last time I heard), but I believe that the happiness of the paddlers after receiving this gift would be worth more. Some say it's not a reasonable thing to ask for but as an assistant coach myself, I understand that things don't always go the way you want them to. All I can ask of my paddlers is that they try their best and that's what I hope to see in the building of this boathouse, the best effort possible.

Thank you for reading this and also thank you for providing us such a great city to be proud to paddle in.

Sincerely,
Josh Magbag

Tony Nairn

§ 37(1) Personal and Confidential

Mayor and Council
City of Vancouver
453 West 12th, Avenue Vancouver BC
V5Y 1B4

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility

I am a ten year boating participant in False Creek and I am 76. We train in dragon boats for ten months of the year, three times each week, frequently in the rain and sometimes in the snow (it is my second home) and I am writing to give my support to the above noted re-zoning application, that contains a contribution to a community boating facility in False Creek Dragon Zone. We always come off the water wet through (every stitch of clothing) and a change facility is badly needed for our good health.

Over 70 Dragon boat teams practice in False Creek throughout the year. This includes about 2800 people of all ages, ranging from 15 to 87 yrs.

Teams that have trained in False Creek Dragon Zone have participated in many racing events around the world and won the top medals. The Canadian dragon boat teams that raced in the world championships in Hungary last year won more Gold and silver medals than any other Country, and even more teams than last year are now training in False Creek, to go to the world championships in Italy, in August 2014. We are lucky enough to have some of the best coaching in the world, working with our teams and the records show that our teams bring home most of the Gold medals.

The Senior C teams won the Gold medals in the Canadian National championships in Montreal in 2012, and again in Victoria in 2013. (Senior C is for paddlers over 60 yrs.)

There are many teams with outstanding records, training along-side us who also need adequate boating facilities.

For years the boating teams have been operating with overcrowded, make-shift facilities and a lack of storage space. Teams frequently line up on shore, waiting for other boaters to cast off from the dock, to provide space, before they go down the ramp to their boats. This waiting on shore is a big time waster for the athletes, who are longing for larger facilities, docking space and storage space for their boats.

The annual "Rio Tinto Alcan Dragon Boat Festival" held at Dragon Zone, is now the largest dragon boat festival in the world, outside of China.

Paddling is an environmentally friendly sport, providing athletes with clean air exercise that does not use road space or need road closures, and athletes can participate until old age.

I hope that you will approve this application and make the paddling facility a reality. We have been waiting a long, long time for it.

Yours sincerely

Dear Mayor and Council,

Re: Re-zoning application of 998 Expo Boulevard

I wish to state my support of the above noted re-zoning application that includes a CAC of \$4.2 Million Dollars to be used towards a boating centre in False Creek. I congratulate you on the almost unanimous decision to advance the process forward by referring the report to Public Hearings.

It has long been a disappointment to me that even though I live within walking distance of False Creek there are so few opportunities to get out on the water. The building of new docks as the first step towards the eventual development of a boathouse, available to all Vancouver citizens, not just the few that can afford expensive club memberships, is an excellent use of CAC dollars, and I applaud you.

A boathouse in False Creek could become a legacy for generations to come and I look forward to when you pass this CAC unanimously.

Yours truly,

Larry Pahl, P.eng

Sent: Wednesday, May 21, 2014 2:56 PM
To: Correspondence Group, City Clerk's Office
Subject: Re: Re-zoning application for 998 Expo Boulevard and boating facility

Dear Mayor Robertson and Council:

I am a Vancouver- based homeowner and business owner and am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek. Volunteering my production and presentation skills each year to the Rio Tinto Alcan Vancouver Dragon Boat Festival, specifically in programming the World Beat Stage since 1997, I have had ample opportunity see the growth of interest in paddle sports and witness how False Creek is rapidly becoming the waterfront centre of the city Vancouver so desperately needs.

This Re-zoning application will not only ensure that the Dragon Boat Festival, the fourth largest public event in Vancouver and now entering its 26th year, has a permanent home on False Creek, a community facility for water sports fits with *Vancouver's Healthy City Strategy* as it integrates environmental, economic and social needs of a growing city. The *Vancouver Sport Strategy*, created through community consultation, presents six strategic goals. A community boathouse

on False Creek and the network and opportunities it would present aligns with each of these six strategies. This initiative benefits more than just Dragon Boats as well, kayaks, canoes and all flat water recreational paddling will become more accessible and enjoyable.

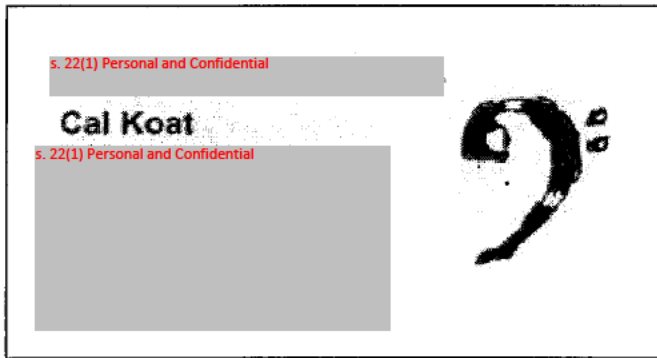

Let's be honest, every great city has a 'magnetic centre' where people gather. The Robson Square/Art Gallery is the natural centre of the downtown hub but is woefully inadequate for Vancouver's growing population. A waterfront public space on False Creek is the natural next step. Ensuring that recreational facilities and green spaces are place before every last inch is developed fits well into council's vision for the future of our beautiful city. I urge you to approve this application. Thank you for our kind consideration and best wishes with your deliberations.

Best regards,

On Behalf Of Amanda Chan Ares Training

Dear Mayor and Council;

I live in Olympic Village and am supportive of the proposal to re-zone 998 Expo Boulevard that includes a \$4.2 million dollar contribution to a boating facility. This has been a long time coming and is a necessary step towards providing support and growth for water sports, which is such an integral part of life in Vancouver.

Yours truly,

Amanda

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and Paddling Centre

I am a resident of Kitsilano, Vancouver and avid kayaker – both urban and wilderness paddling – and am writing to voice my support for the above noted re-zoning application that contains a community amenity contribution for a community paddling facility in False Creek.

My roots to paddling were seeded through corporate participation in the formative years of the Alcan(now Rio Tinto) Dragon Boat Festival. The annual adrenalin rush that I experienced, and indeed observed in the cheering crowds, has also fueled a love for non-competitive paddling in urban Vancouver, in locally-remote areas such as Indian Arm, and in more remote areas such as Broken Islands, Ucluelet, BC, Johnstone Strait, BC, Belize, and the Sea of Cortez. All of this though has its roots in the readily accessible local paddling facilities of Vancouver's water sport hub - False Creek.

The City is struggling to keep pace with the success of the Dragon Boat festival and the spin-off demands of the Vancouver paddling community. This demand is diverse in users, paddle craft, and access time (arguably 17hr/7d), and the City has long been challenged to keep up with this continuing growth. **The proposed development 998 Expo Boulevard provides an unmatched opportunity for the City to realize a community amenity contribution for a False Creek community paddling facility. This game-changing community development would (i) accommodate the growing demands of the diverse mix of recreational paddling in Vancouver and (ii) enhance the opportunity for Vancouver's "wannabe" elite paddlers to hone their competitive skills in False Creek with the goal of representing Vancouver and Canada in future competitions.**

While I no longer pursue competitive paddling, I continue to paddle False Creek's inner urban setting - stopping for lunch and groceries at Granville Island...then continuing along the marine shoreline to enjoy the ecosystem of another Vancouver icon - Stanley Park. Visitors to Vancouver also marvel at this experience - it is one that few other world class cities can boast, and one that helps distinguish Vancouver's urban/eco-signature. Having a community paddling facility would solidify many aspects of Vancouver's marine recreation and better avail the experience to those who do not own paddling craft, or are visiting our great city and wish to paddle the inner city.

I urge you to resolve in favour of this community amenity and to not miss this rare opportunity to enhance False Creek's paddling community.
Respectfully – Mike Rankin

Michael G. Rankin, M.Sc. RPBio., CSAP-Risk Specialist

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

I am an event organizer in Vancouver and I am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

- The Dragon Zone Paddling Club provides thousands of people with the chance to get out on the water every year, regardless of their financial situation.
- Over 70 dragon boat teams practice at Dragon Zone, meaning that about 2800 people regularly use the make-shift facilities now.
- Its a very intergenerational sport.
- The age of dragon boaters on teams ranges from 15 to their early 80s.
- This community amenity will provide stability and a focal point for people taking part in this growing sport and will keep paddling on False Creek.
- Dragon Zone holds special events for children at inner city schools to try dragon boating. Children and their teachers have taken part in these occasions which include a chance to paddle a dragon boat. For some it was their first time in a boat!
- A community facility for water sports fits with Vancouver's Healthy City Strategy as it integrates environmental, economic and social needs of a growing city.

I hope that you will approve this application and make the paddling facility a reality. We've been waiting a long-long time.

Yours sincerely,

Adrian Sinclair

Dear Mayor Robertson & Council,

Re: Re-Zoning Application for 998 Expo Blvd and Boating Facility

I am writing to you as a Board Member of the Canadian International Dragon Boat Festival Society ("CIDBFS") **in support of the re-zoning application that contains a contribution to a community facility for paddlers in False Creek.**

In addition to my ongoing involvement with the CIDBFS and the annual Rio Tinto Alcan Dragon Boat Festival, I am also a prior resident of the Olympic Village residential development. I have first hand knowledge of how integral "outdoor living" culture is to the local community. In fact, living by the water and the activities that came with that are what first drew my family to the area. Unique sports like year-round paddling are what make Vancouver and False Creek such a special and desirable area to live.

The sport and culture of Dragon Boating continues to grow in False Creek out of the society's current base of operations in the Creekside Community Centre and nearby temporary storage trailers. As you may be aware, over 70 Dragon Boat teams including 2,800 paddlers make use of the temporary facilities on a weekly basis. The need for additional space and a permanent home is evident to ensure the continued viability and growth of this environmentally-friendly activity.

While paddling activities take place year-round, the Rio Tinto Alcan Dragon Boat Festival is our annual summer showpiece. Every year over 3,000 athletes compete and over 100,000 spectators attend the three-day festival encompassing sport, culture, food, and family activities. The festival is the largest of its kind in the world outside of China and is the highlight of the summer for many participants, giving them something to strive and train for year-round.

The festival is only possible because of the ongoing year-round paddling activities that are now an everyday part of False Creek. A permanent Community Boathouse for the paddlers is the next step in the evolution of this sport and is the best way to ensure the culture of Dragon Boating will remain a vital part of the False Creek landscape.

We appreciate your attention to this important matter and hope you will approve this re-zoning application to make the proposed paddling facility a reality.

Sincerely,

s. 22(1) Personal and Confidential

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boathouse

I am a Vancouver resident and many of my friends and colleagues in the area are paddlers. I'm writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

Over 70 dragon boat teams practice at Dragon Zone, meaning that about 2800 people regularly use the make-shift facilities now. Come to our paddling club, Dragon Zone at Creekside, any afternoon or evening and the crowds, noise and activity will demonstrate how popular the sport of dragon boating has become.

Personally, I love to paddle one of the kayaks and discover Vancouver from the water. It provides me with a whole different perspective. This community amenity will provide stability and a focal point for people taking part in this growing sport and will keep paddling on False Creek.

The Vancouver Sport Strategy, created through community consultation, presents six strategic goals. A community boathouse on False Creek and the network and opportunities it would present aligns with each of these six strategies. I believe that a facility that will make paddling more accessible would be a wonderful addition to the community and the City.

I hope that you will approve this application and make the paddling facility a reality. We've been waiting a long-long time.

Yours sincerely,

Beth Freeman

Dear Mayor Robertson and Councillors:

Re: Re-zoning application for 998 Expo Boulevard and boating facility

I am writing this letter to voice my support for the above re-zoning application that entails a proposed community facility for paddlers in False Creek.

I am 62-year-old Canadian of Asian decent. I grew in Vancouver and now I live in the municipality of Burnaby. My personal paddling journey began in 1986 with Expo and continued both locally and internationally until 1990. From 1990 to 2001, I coached teams in the local dragonboat community. In 1996, I turned a group of bankers from the Royal Bank, who were inexperienced paddlers, into a championship dragonboat team. The group of bankers won the 1997 Open Dragonboat Championships in Hawaii. An even greater accomplishment than winning the championship in 1997 for me was seeing how the team developed. The skill level of the bankers varied in terms of paddling and athleticism, but their belief in themselves and passion for the sport allowed them to achieve success on the water.

After reflecting on my paddling and coaching career, I realized that paddling is an activity that I can be involved in for the rest of my life. Paddling has also allowed me to travel, compete internationally, and learn more about my culture. After I shattered my knee in 2008, I was still able participate in paddling and coached steering clinics out of False Creek.

Since 2000, I have been a board member on the Dragonboat BC Committee. The Rio Tinto Alcan Dragon Boat Festival has grown from its roots as a showcase for multiculturalism in 1986 to a vibrant, large, and highly-anticipated annual event on False Creek. The festival remains the largest dragonboat festival outside China.

We have a variety of teams ranging from Mens, Womens, Junior, Masters, and Mixed teams who compete anywhere between the Novice to International and Open Championship divisions. There are wide variety of teams including paddlers of all types, sizes, and abilities. For example, we have paddlers who have lost their sight, who have had organ transplants, and those who have survived cancer. Our event includes a special race in celebration of all those who have survived and lost to cancer.

We have paddlers that come from throughout Greater Vancouver, Vancouver Island, and the Fraser Valley as well as from the United States, including Washington,

Oregon, California, and New York. We have also hosted International teams from Europe and Asia. I believe that this event helps show off our amazing city and brings some revenue into our community.

In addition to organizing and planning our annual Dragonboat Festival, the goal of our Committee has been to create a boathouse in the False Creek for the present and future paddlers for generations to enjoy.

False Creek is a central location that is close to a transportation network of both buses and skytrain stations. A boathouse would serve not only the immediate community but would also allow those living in the surrounding communities to participate and use the boathouse facilities. A boathouse would help promote a healthy lifestyle and provide an opportunity for everyone to learn to paddle a variety of boats such as canoes, kayaks, dragon boats & outriggers.

There are over 70 dragon boat teams (approx. 2800 paddlers) that use the Dragon Zone Club as a paddling training center for racing and recreation. One of the problems with the present facility is the lack of space and storage for equipment that paddlers use frequently. This decreases our ability to encourage more people to participate in paddling.

I would encourage the City of Vancouver to seriously consider keeping dragon boating on False Creek. A community boathouse would be the gem that could make this happen.

I hope that you will approve this application and make the paddling facility a reality that we have been waiting for since 1986.

Yours sincerely,

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

I am a board member, local resident and volunteer and I am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

I believe in the amenities, services, contributions and enrichment that the boathouse/paddling centre will provide to the community. Existing programming, such as the Dragon Zone's programs for inner-city children provides all children with the same opportunities to experience the positive benefits of sport, which leaves no child be left behind. These programs not only remove the financial barriers preventing many children from participating in sport but also address hunger as all Dragon Zone's supported programs include a barbeque or packed lunch.

Here are some other great aspects to approve the re-zoning application for 998 Expo Boulevard:

- Over 70-dragon boat teams practice at Dragon Zone, meaning that about 2800 people regularly use the make-shift facilities now.
- The Dragon Zone Paddling Clubs provides thousands of people with the chance to get out on the water every year, regardless of their financial situation.
- This community amenity will provide stability and a focal point for people taking part in this growing sport and will keep paddling on False Creek.
- A community facility for water sports fits with Vancouver's Healthy City Strategy as it integrates environmental, economic and social needs of a growing city.
- The Vancouver Sport Strategy, created through community consultation, presents six strategic goals. A community boathouse on False Creek and the network and opportunities it would present aligns with each of these six strategies.
- Green space in the city is disappearing this is a great opportunity to focus on our blue space.

- I believe that a facility that will make paddling more accessible would be a wonderful addition to the community and the City.
- Paddling is environmentally friendly causing minimal impact to the environment and a great sport for individuals of any age.
- The Rio Tinto Alcan Dragon Boat Festival has grown from its roots as a showcase for multiculturalism in 1986 to a vibrant, large, much-anticipated annual event on the city's waterfront. Several years ago it became and remains the largest dragon boat festival outside China.

Why not come to our paddling club and Dragon Zone at Creekside any afternoon or evening and experience the crowds, noise and activity, which will demonstrate how popular the sport of dragon boating has become?

I hope that you will approve this application and make the paddling facility a reality. We've been waiting a very long time.

Yours sincerely,
Priya Sharma

Subject: I support a community boathouse on False Creek

Dear Mayor and Council,

I am writing in support of a community boathouse in False Creek.

Full disclosure - I am the Communications Manager for the Canadian International Dragon Boat Festival Society. This is the 15th year the Society has been one of the clients of my public relations company, Anita Webster Communications.

When I began I had no idea of the role dragon boating played in many paddlers' lives. As my involvement and understanding grew, this became abundantly clear.

One year our slogan was "hear the drum beat; feel the passion" - that is the best way to describe the fervor with which so many pursue this sport. Paddlers have told me it's their social life, their exercise, for some it's their way to recover from a bad break-up, meet people when new in town, shed teenage shyness, connect with others with similar challenges ... the reasons people paddle are varied - their dedication is not - it's steady and strong.

These paddlers love this sport and it makes me love working with them! A community boathouse will provide a focal point and a way to assure the city retains and provides for this active, dedicated group of connected citizens.

I am requesting your continued support for this project.

Paddles up, as we say,

Anita Webster
Communications Manager
Canadian International Dragon Boat Festival Society

Dear Mayor Robertson and Council:

Re: Re-Zoning Application for 998 Expo Boulevard and Boathouse

I am writing to voice my strong support for the re-zoning application for the 998 Expo Boulevard site which will contribute a \$4.2M CAC to build a much needed community Boathouse facility for paddlers in the False Creek area.

The re-zoning application will not only expedite the development of the identified property but will fund a number of community programs which will benefit a large cross-section of people of all ages in the Vancouver, as well as the Greater Vancouver area. In particular, the funding for the Boathouse project is badly needed to replace the existing docks and temporary storage facilities in the Creekside area which are at end of life, as well as to provide additional exercise / education space and change facilities to address the overcrowding in the Creekside Community Centre which currently supports the paddling program. The construction of the Boathouse will meet the immediate demand and on-going growth in paddling in the False Creek area, as well as providing a community sporting facility for use by future generations.

The Dragon Zone Paddling Clubs provide thousands of people with the chance to get out on the water every year, regardless of their financial situation. Over 70 dragon boat teams practice at the False Creek Dragon Zone, with over 2,800 people regularly using the make-shift facilities. The Dragon Zone also supports 32 junior teams who practice twice a week. Since starting in 1986, the Rio Tinto Alcan Dragon Boat Festival has become a large, vibrant annual event for Vancouver, which brings thousands of people to the False Creek area to participant in the Dragon Boat races and many festival events. The new Boathouse will provide a much needed community amenity which will provide stability and a focal point for people taking part in this growing sport and will keep paddling on False Creek.

I hope that you will approve this application and expedite the construction of the long awaited and badly needed new paddling facility.

Yours Sincerely,

Dear Mayor Robertson and Council,

RE: Re-zoning application for 998 Expo Boulevard and boating facility

I am a False Creek resident and paddler and am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

I have lived in False Creek for seven years and am proud to call the community my home. From the first time I saw a dragon boat, I knew it was something I wanted to try. Just over a year ago, I took the plunge and signed up for a Learn to Dragon Boat course. Now, paddling is a part of my weekly routine.

We live in an amazing city, with the opportunity to enjoy the ocean just as much as any of the other attraction. The ability to enjoy our city from the water is not a reality for many Canadians – it is something we as a community should be proud of and embrace.

The current facility is old, worn out and in dire need of replacement.

I hope that you will approve this application and make the paddling facility a reality.

Yours sincerely,

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boathouse facility

As a resident and avid paddler I am writing to voice my complete support of the above noted re-zoning of 998 Expo Boulevard with a CAC of \$4.2 million dollars towards the building of a boathouse in False Creek application that contains a contribution to a community facility for paddlers in False Creek.

When I arrived in Vancouver 2010 at the age of 44 I was determined to find a sense of community in my new city. I had lived here once before and had not found that warmth and camaraderie to make it feel like home. Ten years later I am back. I floundered my first year and other than work had very little social interaction; I knew I had to make a change. Enter the Dragon Zone, upon signing up for a beginner class and then another, as well as meeting other teams and paddling as a spare I now have a wonderful circle of friend, manage the team that a few of the other "addicted beginners" decided to start, we practice twice a week and support the local restaurants and business'.

I was shocked at the number of people that participate in the dragon boating at the Community Center and that they manage to organize it in such a small space. With the constant increase in paddlers and growing interest in the sport in general we are in dire need of a larger space to paddle out of. As it is now there is a huge shortage of lockers with the majority of us stuffing four or five peoples belongings into one, we wait for an area to change or use a washroom and trip over one another getting ready to go out on to the water or coming back from it.

We are in dire need of a new home to grow this amazing sport in our incredible city so more paddlers can be recruited and participate in an amazing, "green", community growing, health promoting... truly the benefits are endless....sport.

I hope that you will approve this application and make the paddling facility a reality. It is truly needed and will be much appreciated. I cannot think of a better way for you to get a few thousand votes!!!

Most Sincerely,

(please consider this signed via electronic mail)

Dear Mayor Robertson and Council,

Re: Re-zoning application for 998 Expo Boulevard and boating facility (or boathouse, or paddling centre)

I am a resident as well as a local business owner and am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

Firstly, from a Vancouver resident perspective, it is a great cultural event that brings people together to practice and compete in a great sport. Given the geographical location and ethnical diversity of Vancouver, it is only natural that a strong paddling community is strong and present in Vancouver. It is of my opinion that a Boathouse or Paddling centre would only enhance this diversity and the sport as well.

Secondly, from a business perspective, we as business owners, only benefit from the influx of paddlers that are around the area during the year and even more so during the early Festival. I believe around 2800 people/paddlers use the current makeshift and derelict facilities. These are not adequate to support this growing sport. Only a boathouse can help strengthen this community of paddlers and the thousands more who would join them if there was adequate facilities to welcome them.

Lastly, I am the Dragon Boat Festival Co-Chairman. I joined the Board of Directors 2 years ago because of the great impact this event has on the community. The cultural aspects of this festival are abundant, as well as the economical aspects.

I hope that you will approve this application and make the paddling facility a reality.

Yours sincerely,

Subject: Dragon Boat essential to our cultural fabric of our great city

Dear Mayor and Council,

I am a 30 year resident of Vancouver, home owner and taxpayer. I am also a former dragon boat racer and have spent many happy days paddling in false creek

As a Vancouverite I am writing to support the re-zoning of 998 Expo Boulevard with a CAC of \$4.2 million dollars towards the building of a boathouse in False Creek. This has been a long time in coming and is necessary to provide support and growth for water sports which is such an important part of life in Vancouver.

The boathouse will help us continue to evolve as world class city and will benefit the city immensely.

Can you please acknowledge that this email was read and received and that my opinion counts in this discussion.

Best regards

Mark Simpson

Dear Mayor Robertson and Council,

I am a paddler and am writing to voice my support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

For the first time since I migrated to Canada in 2004, I have found my passion. After a short stint of being unhealthy, paddling at False Creek is helping me stay active. This gives me a sense of community, living very far from where I grew up. I have met awesome people and see great camaraderie among paddlers. Aside from that, I can tell that this is a great venue for a social environment that encourages teamwork, hard work and friendliness

I hope that you will approve this application and make the paddling facility a reality. We've been waiting a long time.

Yours sincerely,

Faith Ignacio

Dear City of Vancouver,

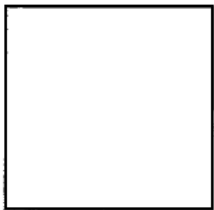

I just signed The Canadian International Dragon Boat Festival Society's petition "[City of Vancouver: Support the re-zoning application that contains a contribution to a community facility for paddlers in False Creek.](#)" on Change.org.

Support the re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

Sincerely,
Ann Phelps s. 22(1) Personal and Confidential Canada

Dear Mayor Robertson and Council:

Re: Re-zoning application for 998 Expo Boulevard and boating facility
(or boathouse, or paddling centre)

We are home owners, business owners and parents of a high-school aged paddler (Dragon Boating) and are writing to voice our support of the above noted re-zoning application that contains a contribution to a community facility for paddlers in False Creek.

Our daughter attends Sir Winston Churchill Secondary and the school fields 2 teams (some 75 teens) in Dragon Boating competitions with practices twice weekly out of Dragon Zone. She recently participated in a Dragon Boat Meet – and there were hundreds (if not thousands) of kids competing in a safe, thriving, local, neighborhood setting. The youth teams also competed against mature and even elderly teams (The age of dragon boaters on teams range from 15 to their early 80s) – which is a fantastic way to create connections between generations – brought together by a shared interest.

I also understand that over 70 dragon boat teams practice at Dragon Zone, meaning that about 2800 people regularly use the make-shift facilities. To continue encouraging active paddling lifestyles – in a safe, local and environmentally friendly way, we support the proposal for a permanent boating facility. Such a facility fits with Vancouver's Healthy City Strategy as it integrates environmental, economic and social needs of a growing city.

I hope that you will approve this application and make the paddling facility a reality.

Yours sincerely,

I would like to show my support for the Concord Pacific 5B West Rezoning. In particular I am pleased to see the public amenities that have been included :

As a dragon boat paddler I know the need for secure storage and upgrades to the docks.

I am also pleased to see the inclusion of the \$11.5 million for desperately needed non-market housing in Vancouver.

I support this development.

Kind regards,

Wendy Brown

This message is in regards to the rezoning of the 5B west site in Yaletown.

I work in Yaletown and live across the Cambie street bridge at s. 22(1) Personal and Confidential and I am in full support of this project. I've worked in the neighbourhood now for 2 years now and think this project and the surrounding amenities upgrades and additions will be a great benefit to the community.

Thankyou for hearing my suppourt.

Alex Collins

To whom this may concern,

I, Lisa Douglas, residing at s. 22(1) Personal and Confidential and working downtown Vancouver in the Yaletown area, am in support of the 998 Expo Boulevard Rezoning and 5B West Rezoning.

I think this would be a benefit to the city of Vancouver since it will aid in improving the housing situation for those in need especially in the Hastings area. In addition to this the community will improve with recreational benefits such as focusing on service areas underneath the Cambie Street bridge, the Seawall improvements, and the False Creek division.

The rezoning would greatly be an advantage to the city, improving and bettering the Vancouver neighborhood.

Best Regards,

Lisa Douglas
