Subject: ZONING AMENDMENT TO CD-1(402)

I would like to register my opposition to over-height buildings being constructed at 555 Great Northern Way. This area was designated height-restricted beyond 48 feet in keeping with the existing buildings erected on the Finning Tractor property. Not only that, but Finning Tractor donated these lots to the City of Vancouver with the proviso that they be used for educational purposes.

The views from buildings across the street from the projected area would be severely limited if this zoning amendment were to pass. Most owners bought their properties believing that over-height buildings would not be permitted on the north side of Great Northern Way.

I wish to strongly oppose any alterations to the zoning by-law at 555 Great Northern Way.
