To Whom It May Concern,

For the last few months the Vancouver Film School Film Production program has been getting up to speed with Telus on a new initiative. The Telus garden media façade in our view is a bold and innovative project that can only benefit the downtown community. It is such a unique vehicle to expose people to visual art. For our part, our students will get an interesting opportunity to showcase their talent and lend themselves to the betterment of the community as a whole.

I personally hope to see this motion pass through council. To that end, anything I can do to make our beautiful city even better is good with me.

It is a win/win for everyone.

Regards,

**Ted Jones**
