Subject: First Shaughnessy Heritage Conservation Area

Dear Mayor and Council,

I wholeheartedly support the establishment of Heritage Conservation Area in First Shaughnessy.

Municipalities across North America have policies and programs in place to protect heritage neighbourhoods and districts. British Columbia has 70 Heritage Conservation Areas, yet Vancouver, which demolishes more than 1000 homes a year, has none.

First Shaughnessy is recognized as architecturally and historically unique. Despite this, 56 of the 317 pre-1940 homes there have already been demolished. Only 11 are protected. In the 18 months before the June 2014 temporary moratorium on demolitions in the area, there were a further 19 inquiries to demolish.

A Heritage Conservation Area will protect these homes. It also promises "city-wide applicability" and is therefore a much-needed tool for retaining our original, more sustainable and affordable housing stock, our green space, and our history.

I urge you to accept the proposed recommendations.

Sincerely,

Teresa Rieger

RE: First Shaughnessy Heritage Conservation Area

Dear Mayor Robertson and Council,

I wholeheartedly support the establishment of Heritage Conservation Area in First Shaughnessy!

Municipalities across North America have policies and programs in place to protect heritage neighbourhoods and districts. British Columbia has 70 Heritage Conservation Areas, yet Vancouver, which demolishes more than 1000 homes a year, has none.

First Shaughnessy is recognized as architecturally and historically unique. Despite this, 56 of the 317 pre-1940 homes there have already been demolished. Only 11 are protected. In the 18 months before the June 2014 temporary moratorium on demolitions in the area, there were a further 19 inquiries to demolish. I find this lack of respect for our city's heritage very disheartening.

A Heritage Conservation Area will protect these homes. It also promises "city-wide applicability" and is therefore a much-needed tool for retaining our original, more sustainable and affordable housing stock, our green space, and our history. I live in Kerrisdale and see the destruction of very solidly built, well maintained, character homes on a daily basis. We need to preserve our heritage stock to maintain the character of our neighborhoods and city. I am in favour of increased densification but not through the wholesale demolition of our heritage.

I applaud the action Vision Vancouver has taken by way of the temporary moratorium, and strongly urge you to show leadership and vision by accepting the proposed recommendations.

Sincerely,

Cassandra Hanson

Subject: Heritage Conservation Area: Maintaining Our Heritage in a truly Green City

Dear Mayor and Council,

I wholeheartedly support the establishment of Heritage Conservation Area in First Shaughnessy. I have been supporting this initiative for years, as I have seen my own neighbourhood in Kerrisdale, Marpole, Dunbar, and South Granville, etc. be demolished in favour of larger, more expensive, and less environmentally friendly homes. There is no excuse on a green city, for permits to be issued for the destruction of a historic home valued at \$4M in order to build a larger, \$6M home - as I have seen on my street for three neighbouring houses.

Municipalities across North America have policies and programs in place to protect heritage neighbourhoods and districts. British Columbia has 70 Heritage Conservation Areas, yet Vancouver, which demolishes more than 1000 homes a year, has none.

First Shaughnessy is recognized as architecturally and historically unique. Despite this, 56 of the 317 pre-1940 homes there have already been demolished. Only 11 are protected. In the 18 months before the June 2014 temporary moratorium on demolitions in the area, there were a further 19 inquiries to demolish.

A Heritage Conservation Area will protect these homes. It also promises "city-wide applicability" and is therefore a much-needed tool for retaining our original, more sustainable and affordable housing stock, our green space, and our history. It is my hope, that the establishment of the First Shaughnessy HCA will be expanded to other areas of the City, both East and West, in order to preserve our history, retain the character of our neighbourhoods, and further protect our landfills from tons of waste created by the destruction of solid, well crafted homes, still able to house the families and communities of Vancouver.

I strongly urge you to accept the proposed recommendations.

Sincerely,

Deborah Grech
