Subject: First Shaughnessy Heritage Conservation area

To Mayor and Council,

This letter substitutes for our first letter dated July 20th.

We continue to support the principal of heritage preservation but only as enunciated in the First Shaughnessy Official Development Plan , not just the houses but

“ the estate image ” and “ to limit further subdivision to protect the character of the area .”

The plan put forward by Council negates the “ estate image ” and substitutes a land grab so that the estate-like qualities which have created the particular character

of First Shaughnessy will be removed.

Ian and Cheryl Munro

First Shaughnessy homeowners for over 31 years.
