To Mayor and Council.....I am writing in regard to the above proposed development on Main St.... I strongly oppose the development of 6 stories as it is just too big a project to place in the back yards of the residents. Main concerns are congestion and parking. We are already dealing with traffic for the few shops on Main and the ongoing expansion of Langara College.. There is no parking on 49th and limited parking on Main St. Back lanes are becoming freeways due to congestion....many cars have to park in back lanes. Most residents have rentals so everyone needs their space. Putting in a development that big will just cause hardships for the taxpayer.

No, I am not against affordable housing but that project is just too big for the area. Other developments along Main St. are maintaining 3 stories, accommodating the neighborhood and commercial shops. There is all this space sitting empty at 34th and Main that is supposed to be for affordable housing so why is this not being dealt with instead of cramming neighborhoods.

Hoping you will give this serious consideration Florence Zabkar

I am writing in regards to the proposed development mentioned above on Main Street. I am very strongly opposed to this 6 storey development. This area does not need this type of development. If you approve this one - then all other proposed developments for this 3 block strip on Main street will also become 6 storey developments - you will open that floodgate for more developments.

Please consider the neighbourhood that I have lived in for more that 45 years and love it.

We already have to bear traffic issues with the Langara College students that can't find parking on site and decide to take over side streets and alley ways. If you approve such a development - it will increase congestion in an already taxed area.

Please, please maintain the level of development that already exists - 3 storey buildings. Don't over impact this well loved and peaceful area.

Thank you for your consideration
