Subject: Public hearing re Little Mountain redevelopment

Although the new plan for Little Mountain does not include enough subsidized housing units, at least we can commend the City for increasing the number of units to close to 300, and for specifying in the plan that most of the units must be built by 2019.

We urge the City to hold the developer to that date, and to insist that the remaining units be built soon after. It's dreadful that, for 8 years, the homes of 500 people have disappeared from available subsidized housing in Vancouver. Longer than 10 years would be a travesty.
