Dear Mr. MAYOR

I have no objection to the proposed development. However often there is a problem of saturated parking all over the area during Church functions. This will be compounded with the multiple 49 suites proposed . This is very important for the neighbourhood as it will impact on parking availability increased noise and strewn garbage. One sees litter directly across the houses secondary to the bus stop and the lack of a small garbage bin at thIS bus stop.

Sincerely

MARCELLE DAVID
