Subject: 969 Burrard / 1019 - 1045 Nelson St. FBC redevelopment

Hi there, I cannot make it in person to the meeting tonight. However, I'd like these comments / questions considered by council - city planning...

1. The large old growth trees on Nelson street; six of them lining the Parking lot, are they going to be kept?
2. Are the condo's going to be marketed to the local population... some in coal harbour were only marketed/ sold over seas.
3. Will there likely be special bi-law exemptions that include work on the weekends? or outside of business hours
4. What is the estimated timeline for project start/ completion?
5. Does this site include any public accessible green space?

Thanks very much!
In health,

Jason Lehmann, MA, RCC.
