Subject: 6137 Cambie Street - Church, Zoning Amendments

Comments:-

Historically Church Hall buildings are considered Sacred and is always single storey.
No for profit rental units above it should ever be allowed.

There is no front yard set back for public Entry.

Shadow from the building will cover public walkways and in winter time it could stay slippery most of the time.

3.08 FRS will leave no green space on this lot and height is out of proportion.

Oakridge and Cambie Street area is being allowed to be over built which is causing major challenges to the existing residents of this area.

Please, please ... stop the insanity of developments of our Cambie Corridor before is unlivable.
