**Subject:** 2221-2223 Main Street Development

Hello,

As a resident of the s.22(1) Personal and Confidential, I am feeling increasingly overwhelmed with the frequency of development permit application notices in my mailbox. The consequences of adding so much congestion in the neighbourhood, having so little green space available, and the continual erosion of my view corridor makes this area far less appealing as a neighbourhood. I do not want to be living in another Cambie highrise corridor which seems to be the direction our planners are taking us.

Please register my unhappiness with this latest application which would take another slice of my city view. In the 5 years that I have lived here, condo developments have popped up like mushrooms all around me while local small businesses have vanished. Mount Pleasant is becoming more and more unpleasant.
