To Mayor and Council:

I write to support the proposed rezoning of 2221-2223 Main Street.

I live in a building that overlooks this site, and I am in favour of anything that adds more affordable housing to Vancouver. I am glad to see that proposed rental rates are linked to income targets, and that many of the units will be 2 and 3 bedroom.

I am generally in agreement with the design recommendations in the "Form of Development" section of the report to Council.
