Subject: Dunbar Ryerson United Church Rezoning, 2165-2195 and 2205-2291 West 45 Avenue)

Hi,

My name is Dr Laura Sauve and I live at s.22(1) Personal and Confidential
I have lived in this part of care is Dale for two years. My son attends Quilchena elementary school. My family and I try your hardest to support the local businesses. I am very strongly supportive of the Dunbar Ryerson church rezoning initiative. Many business owners in my neighbourhood have mentioned that they find it difficult to survive because of the sparse population in this neighborhood.

Unfortunately, a large number of the houses in this neighbourhood seem to be empty. rental accommodation and accommodation aimed at Liwer income Vancouverites is very sorely needed in this neighborhood. It will only make the community more vibrant and more viable. It was likely benefit the businesses which are currently struggling for a lack of workers could afford to live in the neighbourhood as well as a lack of customers.

The local schools would certainly benefit from a more stable population. Finally, it is critical that we continue to have the space available in Dunbar Ryerson church for arts and community groups. The heritage building is a landmarks in this neighbourhood but definitely needs restoration and renovation.

I would be happy to answer any further questions.

Thank you for considering my input
yours sincerely
Dr. Laura Sauve
