Who are you to tell me what I can do with my own home? If I want to rent out my basement suite to whomever the city should STAY OUT OF IT! Our mayor should pick up the garbage, make sure the trains run, and get the heck out of screwing up our city! (Airbnb, Uber, bike lanes, end to natural gas???) the mayor is not QUALIFIED to make changes in these fields. Get out of the developer's pockets and start doing what's good for the city!
