They should be required to put up MORE artistic content, including artistic advertisements. Public advertisements should be artistic, innovative, philosophical, and pleasant to look at.

Hello,

My name is Adam Rollins and I live at "s.22(1) Personal and Confidential" and face this sign. I would like it to be known that the current sign is extremely bright in the evening and disruptive to sleep. I would like for the brightness to be reduced in the late evening hours when it is not advertising to the public (i.e. 10PM onward until morning).

Best,
Adam Rollins
