**Sent:** Wednesday, December 06, 2017 10:47 AM  
**To:** Public Hearing  
**Subject:** 798 Granville Street Screens

*I am the property manager at Telus Gardens and as a close neighbour wanted to provide my comments on the proposed video screens at 798 Granville Street. I fully support the idea of a variety of signs and screens to animate the downtown area and especially Granville Street and the entertainment district where there is activity at all hours.*

*I am familiar with the nature of exterior screens - Telus Gardens has one as well - and it is important to ensure that the screens can be dimmed and provide some contribution to the community, not only advertising. From my understanding of the proposal for Granville Street, the new screens can be dimmed, they will be lowered, and the cultural content displayed on them will be increased. This should satisfy any concerns associated with video screens by surrounding buildings while keeping an important element of the existing building.*

*Thank you for your time.*

Sincerely,

Rebecca Towning
