A floor area exclusion for thermal insulation meeting the Building By-law was introduced in 2008 in Vancouver but not in other jurisdictions when typical wall construction in British Columbia increased by approximately two inches or 2% of area, and was rescinded in 2015 when typical construction increased by approximately two inches further to meet new insulation requirements;
4. Since 2008 the typical wall in a one or two family house has increased in depth by approximately four inches or 4% of area to accommodate the increased insulation requirements of the Building By-law;
5. A floor area exclusion for walls designed to control building envelope leaks through rain screen construction was previously available to one and two family houses in the Zoning and Development By-law;
6. The exclusion of floor area from detached houses that meet the minimum requirements of the Building By-law may have unintended impacts such as increasing their built volume which may affect available green space and neighbourhood fit, and increasing their sale price which may make future transitions to increased densities of dwelling units more difficult;
7. The City of Vancouver includes an aging population and is committed to ensuring accessibility for the elderly and those persons with disabilities;
8. The accessibility requirements for one and two family houses in the 2014 Building By-law may affect the usable dimensions of some rooms, particularly on small lots;
9. A number of one and two family house builders have expressed support for meeting accessibility needs but have expressed an interest in exploring solutions that provide flexibility to maintain usable space.

THEREFORE BE IT RESOLVED

- A. THAT Council direct staff to bring forward recommendations to adjust the Zoning By-law to maintain previously available usable space in small one and two family houses prior to the 2008 adopted Zoning By-law and future contemplated insulation and rain screen requirements during the regulatory review planned for 2018.
- B. THAT Council direct staff to explore opportunities to provide flexibility in meeting accessibility needs in order to maintain the amount of usable space prior to the introduction of the accessibility provisions in the 2014 Building By-law for small one and two family houses as part of the planned regulatory review in 2018;

FURTHER THAT the review be done in consultation with the Persons With Disabilities Advisory Committee, the Seniors' Advisory Committee and other community stakeholders.

2. West Point Grey Rental Density for Students and Seniors

MOVED by Councillor Bremner
SECONDED by Councillor De Genova

WHEREAS

1. The 3 year housing strategy (2018-2021) identifies changes to the city's low density neighborhoods as a high priority;
2. The 10 Year Housing Strategy includes allowing low rise housing forms in low density neighborhoods and supports creation and expansion of "missing middle" housing;
3. The 10 year housing strategy identifies the need to "...deliver large increases in rental, social, and ground-oriented market housing across the city." as part of Priority Area 1;
4. There is a shortage of available housing for elderly residents seeking smaller housing options to replace their existing single-family homes;
5. There is a shortage of available housing near the University of British Columbia for both students and faculty;
6. This shortage has resulted in students and faculty commuting long distances, leading to congestion on the road and transit works, loss of productivity and increased greenhouse gas emissions;

7. The current system of rezoning individual lots for comprehensive development is a major source of uncertainty, delay and costs for small and medium-sized builders;
8. The City of Vancouver currently forbids homes on lots smaller than 12,000 or 18,000 square feet in northwest Point Grey (NWPG hereafter), and homes in this area typically sell for upwards of \$20M as a result;
9. Displacement of low-income residents is of primary concern, and is exceedingly unlikely to occur in wealthy areas such as NWPG.

THEREFORE BE IT RESOLVED THAT the General Manager of Planning, Urban Design and Sustainability be instructed to direct staff to prepare a proposed application and staff report in support of amendments to the Zoning and Development By-law and Parking By-law to rezone Northwest Point Grey (NWPG) north of 4th Avenue and west of Blanca Street and revise applicable policies and regulations in order to consider:

- Increasing the diversity of low-rise housing forms allowed in NWPG
- Continuing to allow single-family homes outright
- Allowing 6-storey multi-family buildings up to 3 FSR, provided they are any of the following:
 - Secured market rental housing
 - Social housing
 - Seniors supportive or assisted housing
- Reducing or eliminating parking minimums on parcels within 800 metres of a frequent transit stop (defined as every 15 minutes or less on weekdays)
 - Eliminating parking minimums for secure market rental housing, social housing, or seniors housing. According to research by Metro Vancouver renter households are more likely use public transit
- A new District Schedule for NWPG based on the proposed schedule attached as Appendix A to the motion on the Regular Council meeting agenda of December 12, 2017, entitled “West Point Grey Rental Density for Students and Seniors”
- Applying an appropriate fixed Community Amenity Contribution (CAC) to any floor space above what is currently allowed under RS-1 zoning
- Basing this approach on the precedent in the Norquay Village RM-9 zone
- Determining the exact amount of CAC through consultation
- Reducing CACs for the preservation and creation of public amenities
- Basing this approach on recouping land lift for use by the City, while providing certainty and a minimum of red tape for developers.

FURTHER THAT staff be directed to report back to Council with the report as soon as is practicable in order for Council to consider referring the matter to a public hearing.
