Re: Re-zoning Application York House School - 4176 Alexandra Street

Thank you very much for considering the rezoning application for York House School.

I reside in the neighbourhood and my daughter attends York House School. The school's commitment to excellence and the impact it has had in the community for over 80 years is palpable.

I would like to commend you for considering the rezoning application, as at the heart of this proposal are the very values that make me so very proud to be part of this neighbourhood and is reflective of what we, as Canadians, hold dear to our heart.

I believe that quality education in an environment that nurtures the spirit of generosity and compassion is essential to prepare our youth for the challenges that lay ahead in our community, locally and nationally.

I fully support the school in their endeavour to increase the capacity and scope of what they work so hard to do everyday. The rezoning application, though providing a modest increase, will have much greater benefit for the future.

I am residing neighbour; I work as a community non-invasive cardiologist. I am a single parent, and one of the best decisions I feel I have made is that I enrolled my daughter York House School. I hope that the proposal is approved for the enhancement of our community and the future generations, as they become our future leaders and excellent citizens.

Thank you very much for your consideration.

Sincerely

Salima Shariff MD, FRCPC
Adult Cardiologist
