

MESSAGE TO CITY COUNCIL

Chinatown Voices is a group business owners, property owners, residents, and community associations – many with links to Chinatown going back over 100 years.

Chinatown Voices cares deeply about our community and believes we can maintain seniors / lower income lifestyles, preserve heritage architecture and character, and increase density to support the business community - ensuring all of Chinatown benefits and enjoys a prosperous future.

The City of Vancouver plans to revoke the Chinatown Revitalization policy that has already resulted in the first positive, sustained growth in the community for decades and introduce a new policy that will reduce current density levels through downzoning.

The only way Chinatown will survive is to create more housing, attract more residents to support the declining businesses, and make the community economically viable again.

We strongly believe that the current zoning along with careful, culturally sensitive development will achieve this. Downsizing will not.

MESSAGE TO CITY COUNCIL

Chinatown Voices is a group business owners, property owners, residents, and community associations – many with links to Chinatown going back over 100 years.

Chinatown Voices cares deeply about our community and believes we can maintain seniors / lower income lifestyles, preserve heritage architecture and character, and increase density to support the business community - ensuring all of Chinatown benefits and enjoys a prosperous future.

The City of Vancouver plans to revoke the Chinatown Revitalization policy that has already resulted in the first positive, sustained growth in the community for decades and introduce a new policy that will reduce current density levels through downzoning.

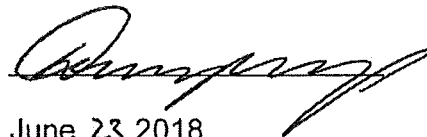

The only way Chinatown will survive is to create more housing, attract more residents to support the declining businesses, and make the community economically viable again.

We strongly believe that the current zoning along with careful, culturally sensitive development will achieve this. Downsizing will not.
