**Subject:** 777 Pacific Boulevard

Dear mayor and council,

I'm writing regarding the rezoning application for 777 Pacific Boulevard. I'm a long time resident of the False Creek area, my husband and I recently moved from Marinaside Crescent to s.22(1) Personal and Confidential and we received the public hearing notification.

I support this proposal and am looking forward to more development in the area including the redevelopment of the Edgewater Casino property. It will vastly improve the waterfront and Pacific Boulevard. My one concern is the amount of light pollution from BC Place. While I'm not impacted myself I don't know how this could possibly be a healthy living environment with so much light so close to residential buildings during the evenings. If residential buildings are permitted and encouraged here then this should really be considered.

Thank you for your consideration.
