

Mon July 16 pick-up

To the Mayor and Council of the City of Vancouver,

The application to redevelop Arbutus Shopping Center into a mixed-use residential development provoked widespread opposition among local residents. After years of community consultation and debate, council approved a rezoning that included some compromises with the community. Now Larco, the developer, seeks to undo all of that work with a new application that seeks to further expand the Center beyond the scope of the negotiated compromises.

We, the undersigned, residents of Vancouver, call on City Council to respect due process and community input, and to reject the Rezoning Application for 2133 Nanton Avenue (Arbutus Centre.)
