**Subject:** I support the St. George's rezoning application

**My name is Dr. Kevin Ong and I support the St. George's School rezoning application.**

I live in close proximity to the school (within Zone A). My address is

s.22(1)  
Personal

s.22(1) Personal and Confidential

The school has made tremendous efforts in recent years to improve traffic in and around the neighbourhood by establishing a school bus system that serves nearly every boy in the school. Even though we live within minutes of the school, our son still takes the bus each day because it reduces congestion around the school, improves student safety, and is environmentally friendly.

I wholeheartedly support the school's efforts to expand and improve its facilities as it strives to keep up with its rigorous standards of education. Please do not hesitate to contact me with any questions.

Sincerely,

Kevin Ong

**Subject:** Support for St. George's School Rezoning Application

Hello –

My wife and I currently live several blocks away from St. George's senior school, at s.22(1) Personal and Confidential We have lived at this address for just over one year.

Previously we lived for approximately five years at s.22(1) Personal and Confidential which is also a few blocks from the school.

We have always found St. George's to be an excellent neighbour and a great feature of the neighbourhood. We have two sons, aged 14 and 11, both of whom attend St. George's.

We have spent quite a bit of time reviewing and considering the current rezoning application. We are strongly in support of the application. The proposed new buildings appear to strike an excellent balance between providing long-overdue new teaching spaces, with respect for the look and feel of the community.

We are pleased that the number of students is not increasing – this is just a matter of creating a better teaching environment for those lucky enough to attend. We have never experienced any difficulties with the parking and traffic. It can sometimes get busy – but that is the nature of living near a school. We are also very pleased that the plan will maintain large playing fields throughout construction and after the new buildings have been built.

We sincerely hope that the rezoning is approved!

Best regards,

Michael and Andie Skene
