Siting and massing of new development are intended to be compatible with, but not the same as, pre-existing single-family development. Secondary suites and lock-off units are permitted to provide flexible housing choices. Retention of character buildings and high quality design and liveability standards are encouraged for new development. The RM-8N and RM-8AN Districts differ from the RM-8 and RM-8A Districts, because they require noise mitigation for dwelling units close to arterial streets.

Individual one-family dwellings and one-family dwellings with a secondary suite (with or without a laneway house) are permitted uses; however, if developed as the only principal building on a site, these uses are regulated by the RS-1 District Schedule.
