To whom it may concern,

I am glad to hear that there will be new social housing for seniors and hope you have plans for even more in the near future.

I would like to see some of the parking stalls be electric vehicle charging stations so as to encourage the transition off gas vehicles asap. This would be in line with your greenest city goals.

When the new seniors housing is eventually opened please ensure you connect the opening with a group of children from one of the nearby schools (Douglas & Oppenheimer) and also the neighbours.

Sincerely,

Jane-Ann Kay
