**Subject:** Support for 1303 Kingsway Rezoning

Dear Mayor and Council,

I'd just like to drop a quick note to indicate my support for this rezoning.

This will add 54 new rental homes to our very tight rental market, and keep a very lively and well-used pub that acts as a third place (meeting/gathering place) for the neighbourhood.

I think the building looks great and fits very well into the neighbourhood. I wish that the building could contain more units and have less parking, but otherwise it looks great. We need far far more purpose built rental housing units (we have barely surpassed 50% of our annual targets for purpose built rental in 2018), especially located so close to the frequent transit network, and within walking distance of shops and services, elementary schools, and parks.

Thanks and Kind Regards,

Laurel Eyton
