Subject: Disagree with Rezoning Application - 76-96 West King Edward Avenue

I disagree with this proposal. All this will bring is more traffic, cars, pollution, and new big buildings blocking out the light. It will ruin the character of the neighborhood that I grew up in.

I live in the neighbourhood and I'm writing to you on behalf of our neighbours on our street. I'm writing to you about the rezoning application from RS-1 to RM-8AN.

I feel that we are overloaded in the neighbourhood with all these new multiple condos buildings. The traffic congestion has become unbearable on Cambie and King Edward. The condos that were built are all financially unreachable for most local Vancouverites. Most people still drive and the ones that take the Canada line park in our neighbourhood and take the train into town. So there isn't anywhere for the home owners to park. The Canada line needs a parking lot and drop off parking.

Feeling that a lot of our new families are moving out of the area and the new dwellings are for people to park their money.

Very disappointed in how this city has evolved. We are tax payers unlike a lot of others that get the benefits and claim they have no income. The city needs to wake up and see what's happening.

So no to rezoning!

Thanks,
Bruna
