To whom it may concern,

Re: 708-796 Renfrew Street

Hope this message finds you well. I am sending this email because I had a few tenants contact me yesterday about a man knocking on the doors of 708-796 Renfrew homes. One tenant said that the man claimed he is from City of Vancouver and was telling the tenants that they are being evicted; spreading false information. This happened around 2 pm Sunday June 9. Given the hearing is tomorrow, I do doubt this man was from the City of Vancouver. We have been very transparent with all the tenants and informed them about the rezoning application prior to them renting out the unit. Every single tenant made an informed decision to move in even after knowing that there is a possibility that they could be moving out later down the road. Because of this transparency, the tenants were quick to tell this man he was spreading false information and they contacted us immediately.

If you have any further information about this matter, or are aware of this man, please kindly let me know.
Thank you and regards, Nav Bains
