Subject: Please don't build next to Vancouver Hospice House

To whom it may concern,

My name is Michelle Elliott and I'm writing to voice my opposition against the proposed townhouse complex development right next door to the Vancouver Hospice House. While I have not had any family members go through this particular hospice, my best friend's mother did over a year ago. I lost my mother to cancer over a decade ago so when my friend told me her mother had terminal cancer, it really hit home. In my case, we weren't told that my mom's cancer was terminal so her death hit us real hard. For all the times I visited my friend and her mother, it was almost amazing to see such a facility provide so much love and support throughout such a difficult process. They were kind of course, but it felt comforting knowing that provided the utmost care and compassion towards their clients and their family and friends. This place provides peace, which is what all palliative patients and their families/friends need at this sad time. Please don't build yet another townhouse complex next to this beautiful establishment. It will be too disruptive to the patients and their families.... they are only here for a limited time and it would be nice if they spent their last few moments together in peace. If you've ever lost anyone close to you, you will know how important facilities such as this hospice house is. I only wish I had the time and peaceful place to spend with my own mother before she passed on. Thank you for your time.

Sincerely,
R. Michelle Elliott

Subject: Oppose 22 unit condo next to hospice

Hello,

I am writing to show my support for the refusal of the rezoning proposal (22 unit condo) next to the Granville hospice. I am writing as a Canadian resident who is concerned about our aging parents. It is important to maintain a peaceful quality of life during the fragile period when people are dealing with the overwhelming challenges at the end of Their lives

Thank you,

Amanda Toperoff

I oppose the townhouse development next to the Vancouver Hospice. I am the owner of Greenscene Landscapes Inc and have been fortunate enough to assist in the gardening and landscaping at the hospice. The hospice and its gardens provide a lot of peace and tranquility to both the patients and their families. An intrusive, loud, and hectic complex right next door would be devastating to the hospice and it's value to the community! Thank you,

Danny Elliott

Subject: Petition against the development beside the Vancouver Hospice House

Hi,

My name is Craig Pangindian and I am writing to petition against the development of a townhouse complex that is proposed to be built by the Vancouver Hospice House. Families and patients are in need of a peaceful environment to help them get through this tough time in their lives. Please do not take that peace and serenity away from them.

Sincerely,

Craig Pangindian

Subject: Development near the Vancouver Hospice

I believe the Vancouver Hospice provides one of the very few end-of-life places of serenity. We owe it to our citizens to allow them to spend their last days in peace and quiet. The proposed development would be a catastrophic invasion of their and the Hospice's privacy. We don't need another development; we DO need the tranquil environment that the Hospice provides. Michael Galbraith.
Concerned citizen with a family member who may soon need the Hospice.
